Television Storyworlds as Virtual Space M. King Adkins, 2018-09-15

Television Storyworlds as Virtual Space examines television as a series of virtual realities viewers enter and explore one episode at a time Drawing on specific examples from *Westworld* to *Green Acres* *Twin Peaks* to *Fargo* it illustrates how each of these worlds invites us in encourages us to move about within it and constantly pushes against its own boundaries so that its universe continually expands and develops Specific chapters consider the importance of title sequences in helping us enter these storyworlds how children s television educates us in using virtual reality and the centrality of the post apocalyptic series to the TV landscape Ultimately the book situates television as part of an artistic continuum one that stretches back as

far as cave paintings but that also anticipates the digitally based virtual reality that lies just on the horizon **e-Pedia:**
