God and the Goldsmiths Robert McNair Wilson,1961 First published in 1933 under title Monarchy of money power Includes bibliography The Flying Man Markus Raffel,Bernd Lukasch,2022-06-27 Of all the men who attacked the flying problem in the 19th century Otto Lilienthal was easily the most important His greatness appeared in every phase of the problem No one equaled him in power to draw new recruits to the cause no one equaled him in fullness and dearness of understanding of the principles of flight no one did so much to convince the world of the advantages of curved wing surfaces and no one did so much to transfer the problem of human flight to the open air where it belonged These words were spoken by Wilbur Wright who successfully accomplished the first powered flight together with his brother Orville in 1903 on the sand dunes of the Outer Banks off the coast of North Carolina Wilbur was talking about the most important of their predecessors Otto Lilienthal Lilienthal attracted worldwide attention due to the spectacular photographs showing him in flight made possible by technology that had only just been developed by him This fortuitous union between a pioneer of aviation and the pioneers of so called instantaneous photography is responsible for the immense contemporary popularity of Lilienthal s flights around the globe the first ever free flights performed by man This book traces the life of the German

aviation pioneer focusing on the designs of his many aircraft and the photographic documentation that has survived The presentation ends with a remarkable research project conducted by one of the authors right up to and including his own training exercises with Lilienthal's normal soaring apparatus and large biplane This project offered new insight into Lilienthal's work and also led to a spectacular aerial meeting of Lilienthal's 1895 biplane and the Wright brothers 1902 biplane at a historic location on the Outer Banks The book provides access to video material largely stemming from this project

World Literature for the Wretched of the Earth J. Daniel Elam, 2020-12-01 World Literature for the Wretched of the Earth recovers a genealogy of anticolonial thought that advocated collective inexpertise unknowing and unrecognizability Early twentieth century anticolonial thinkers endeavored to imagine a world emancipated from colonial rule but it was a world they knew they would likely not live to see Written in exile in abjection or in the face of death anticolonial thought could not afford to base its politics on the hope of eventual success mastery or national sovereignty J Daniel Elam shows how anticolonial thinkers theorized inconsequential practices of egalitarianism in the service of an impossibility a world without colonialism Framed by a suggestive reading of the surprising affinities between Frantz Fanon's political writings and Erich Auerbach's philological project World Literature for the Wretched of the Earth foregrounds anticolonial theories of reading and critique in the writing of Lala Har Dayal B R Ambedkar M K Gandhi and Bhagat Singh These anticolonial activists theorized reading not as a way to cultivate mastery and expertise but as a way rather to disavow mastery altogether To become or remain an inexpert reader divesting oneself of authorial claims was to fundamentally challenge the logic of the British Empire and European fascism which prized self mastery authority and national sovereignty Bringing together the histories of comparative literature and anticolonial thought Elam demonstrates
