

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Inclusive Practices Fabio Dovigo, 2017-01-28 Today school is becoming a rapidly changing learning environment Thinking about students as a homogeneous population is no longer allowed as diversity in terms of culture language gender family organisation learning styles and so on has emerged as a key challenge for education today The debate on Special Educational Needs largely reflects this challenge as working in school implies careful reconsideration of what we mean by normal and special Current educational intervention is generally based on a deficit and within child model of facing SEN whereas very little attention is given to the role of learning environments The focus is on the child more than on the whole class and on cognition and technical provisions more than on affective sociocultural and community dimensions of learning Conversely regarding students and their needs as hidden voices allows us to adopt a transformative approach which sees diversity as a stimulus for the development of educational practices that might benefit all children and help school to become an inclusive and moving organisation The aim of the book is twofold on the one hand it offers a systematic overview of the inclusive education state of the art in six countries Germany Italy Norway Sweden UK and USA based on the contributions by well known scholars such as Christy Ashby Barbara Brokamp Fabio Dovigo Kari Nes Mara Westling Allodi Tony Booth and Beth Ferri on the other hand the book analyses five cases of good practices of inclusion related to different subjects and school levels
