Jesness, 2010-11-16 We often hear about the need to make demands on all students especially those of color of different cultural backgrounds and from low income families A lot of educators talk the talk but only a few have actually walked the walk One of the few American schools that actually made substantial strides in improving education for low income students was Garfield High school in the 1980s The success of Jaime Escalante Garfield's calculus teacher was depicted in the 1987 film Stand and Deliver This film is often shown in education classes and teacher inservices Unfortunately Hollywood played rather freely with the facts and created a film that is a poor guide for teachers and administrators who want to recreate Escalante's experience The reality however is even more wonderful than the film and unlike the Hollywood fantasy is replicable When coauthor Jerry Jesness interviewed Jaime Escalante about the secret of his success the first four words Escalante spoke were Our principal Henry Gradillas In this book Dr Gradillas shares both his upbeat philosophy of education and the practical school management techniques that helped translate that philosophy into success for thousands of students over three decades The book focuses on three areas that are key to the operation of an effective school School climate instruction and curriculum It includes many references to the Garfield experience as well as to other schools where Gradillas was at the helm Learning to Teach Adults Nicholas Corder, 2003-09-02 First published in 2007 Routledge is an imprint of Taylor Francis an informa company

Maioli, 2017-03-18 This book is about the empiricist challenge to literature and its influence on eighteenth century theories of fiction British empiricism from Bacon to Hume challenged the notion that imaginative literature can be a reliable source of knowledge This book argues that theorists of the novel from Henry Fielding to Jane Austen recognized the force of the empiricist challenge but refused to capitulate It traces how in their reflections on the novel these writers attempted to formulate a theoretical link between the world of experience and the products of the imagination and thus update the old defenses of poetry for empirical times Taken together the empiricist challenge and the responses it elicited signaled a transition in the longstanding debate about literature and knowledge as an inaugural round in the persisting conflict between the empirical sciences and the literary humanities *Curriculum and Pedagogy of EVS* Mr. Rohit Manglik, 2022-04-22
