Auer, David Guralnick, Istvan Simonics, 2018-02-09 This book gathers the Proceedings of the 20th

International Conference on Interactive Collaborative Learning ICL2017 held in Budapest Hungary on 27-29 September 2017. The authors are currently witnessing a significant transformation in the development of education. The impact of globalisation on all areas of human life, the exponential acceleration of technological developments and global markets and the need for flexibility and agility are essential and challenging elements of this process that have to be tackled in general but especially in engineering education. To face these current real world challenges, higher education has to find innovative ways to quickly respond to them. Since its inception in 1998, this conference has been devoted to new approaches in learning with a focus on collaborative learning. Today the ICL conferences offer a forum for exchange concerning relevant trends and research results and for sharing practical experience gained while developing and testing elements of new technologies and pedagogies in the learning context.

Administrative reforms for India VIJAYA KRUSHNA VARMA, 2020-06-29. Administrative reforms are long overdue in India as the present administrative system is obsolete and continuing as a legacy from British Raj. It is not coping with the ever-changing needs and aspirations of the ever-growing population of the country. Administrative set up should be redesigned to work more efficiently and to bring transparency, accountability, efficacy and high speed response into governance to meet the aspirations of the people before their anger turns into revolt against the elected governments. Zero corruption government should be the

bedrock of an advanced democracy We need to restructure and reboot the present administrative format into a more responsive entity to give quality services and equal opportunities to all citizens instantly on demand at a single platform These administrative reforms are aimed at removing corruption arrogance and lethargy at all levels and in all forms
