**For Security Personnel, USE OF FORCE, 2020** Mursel Sevindik, 2020-04-05 This book covers Use of Force issues for law enforcement officer The goal is to provide officers with an understanding of the various force options available to them and to make them aware of international standards regarding use of force The use of force is a necessary and at times unavoidable part of the duty of a law enforcement officer Officers should use no more force than is absolutely necessary to achieve a legitimate law enforcement objective During their normal duties officers often encounter various levels of dangerous and violent situations They are often faced with situations that require the use of force in order to effect an arrest or ensure public safety Resistance can be physical verbal and even psychological in nature Sometimes the officer has to use force and even firearms to bring the situation to an end The authority to use force and firearms is a very exclusive one There are many restrictions for their use The essential principles for the use of force are those of legality necessity and proportionality The objective for using force is to overcome the suspect s resistance to an officer s lawful purpose The officer must be able to articulate why a specific use of force was justified The officer s justifications to use force must be so clear to the officer involved that he would not hesitate when faced with this decision The consequences of hesitation or inaction because of inadequate training can be devastating Therefore the officer must carefully consider the use of force Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

**For Security Personnel, OFFICER SURVIVAL SKILLS, 2020** Mursel Sevindik, 2020-04-05 This book covers Officer Survival Skills issues for law enforcement officer The goal is to develop the law enforcement officer s understanding of officer survival for the safe and efficient performance of their duty The majority of police officers duties

become routine though the potential for danger is always present The duties of the officer require them to enforce laws and to control the illegal actions of certain citizens Survival techniques if properly applied provide the officer an opportunity to overcome the resistive behavior of subjects These techniques also provide officers with self confidence which is needed to win When an officer uses force peers the public the media the government and the world review that actions If the officer applies inappropriate force it reflects poorly on the individual and gives a non professional appearance to the entire force The officer is subject to legal limitations When the officer is faced with a violent situation it is required that he make decisions in a fraction of a second He may have to justify his actions in court Therefore proper defensive tactics training provides the officer with the tools required not only to apply the proper techniques but also to decide the proper level of force necessary to overcome resistance This will obviously enhance officer survivability insure proper performance during the situation and justification in court Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

*For Security Personnel, HANDCUFFING, 2020 Mürsel Sevindik, 2020-04-15* This book covers Handcuffing issues for law enforcement officer The goal is to understand and be able to perform proper techniques of using handcuffs Handcuffs are temporary restraining devices designed to control the movements of a subject Officers may routinely use handcuffs to control restrain and transport persons Restraining devices will be applied properly and in accordance with training received so as to minimize the risk of unnecessary injury The design of handcuffs ensures that the subject s movements are controlled to reduce the risk of injury to the police officer members of the public and the subject himself The most common types of handcuffs used in law enforcement today are the traditional and hinged variety In addition officers also use plastic cuffs in some situations Handcuffs do not entirely immobilize a suspect Regardless of the type used it is imperative that officers be aware that the police style handcuff is a temporary restraining device and that its proper use and application is crucial for the safety of the officer and subject Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

*For Security Personnel, HARD EMPTY HAND CONTROL, 2020 Mürsel Sevindik, 2020-04-14* This book covers Hard Empty Hand Control issues for law enforcement officer The goal is to provide police officers with an understanding of the principles of Hard Empty Hand Control techniques Hard Empty Hand Control techniques are defined as striking techniques These techniques are used to control active aggression with empty hands and feet when the intermediate use of weapons is justified but are not tactically available The term hard is descriptive of the nature of the technique Hard empty hand strikes are always defensive not offensive These techniques are taught to protect lives from immediate danger All hard empty hand control techniques are basic in nature however they address non lethal use of force situations and are generally reliable and effective when properly utilized Police officers should learn and demonstrate knowledge of the striking areas as well as methods of striking When these techniques become necessary loud clear repetitive verbal commands are an important aspect of the control process The subject needs to know

what the officer desires him/her to do. In addition, verbal and physical de-escalation is always preferred and should be attempted if applicable. In training, safety is paramount. Perfect practice makes perfect. Proper technique is more important than the speed of technique application. Proficiency will increase the speed proportionally. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement. **For Security**

**Personnel, WEAPON RETENTION AND DISARMING, 2020** Mürsel Sevindik, 2020-04-15. This book covers Weapon Retention and Disarming issues for law enforcement officers. The goal is to develop the officer's understanding and awareness regarding firearms retention techniques and to enhance Weapon Retention and Disarming abilities. Law enforcement is normally achieved without any danger to the officer or other citizens. However, police officers occasionally encounter persons who will resist violently in order to evade detection and prosecution. Officers or civilians may be killed or injured by offenders who take and use an officer's firearm. In some close encounters, a suspect may try to grab the officer's sidearm. Then the officer's equipment stance and his/her ability to react may literally decide his/her fate. Loss of the officer's gun could mean the loss of his/her life. Officers must develop a defensive awareness that their weapon can be snatched. They should learn some basic techniques to regain control of the firearm once it has been snatched from them. In extreme cases, the officer has to deal with the threat of deadly violence, i.e. disarming a suspect pointing a firearm. Any attempt to disarm a suspect who is pointing a firearm at the officer is a last resort measure. If an officer is alert and attentive to potential dangers, this last resort will never have to be employed. This chapter will focus on weapon retention, defensive awareness, regain control, and describe some techniques for disarming, which must only be used as last resort. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement. **For Security Personnel, DEFENCE**

**and INTERVENTION, Theory and Practice, 2020 (Officer Survival Skills, Use of Force, Soft Empty Hand Control, Hard Empty Hand Control, Weapon Retention and Disarming, Handcuffing, Conducting Suspect Searches, Defensive Baton)** Mürsel Sevindik, 2020-04-29. This book covers Officer Survival Skills, Use of Force, Soft Empty Hand Control, Hard Empty Hand Control, Weapon Retention and Gun Disarming, Handcuffing, Conducting Suspect Searches, and Defensive Baton issues for law enforcement officers. The most important priority of the officer is able to survive in dangerous situations. These techniques provide officers self-confidence, which is needed to win. Law enforcement officers are authorized to use a range of force options to preserve the peace, prevent crimes, maintain order, and apprehend suspects. Soft empty hand techniques are the first option of physical response used to restrain a person who is resisting. Hard Empty Hand Control techniques are defined as striking techniques. In some close encounters, a suspect may try to grab the officer's sidearm. Officers must develop a defensive awareness that their weapon can be snatched. Handcuffs are temporary restraining devices designed to control the movements of a subject. Body searching is a careful systematic examination of the suspect at the scene of a crime or immediately after apprehension. A trained officer who is proficient in the use of the baton is better able to

protect himself and is less likely to resort to the use of his firearm Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement **For Security Personnel, SOFT EMPTY HAND CONTROL, 2020** Mürsel Sevindik, 2020-04-14 This book covers Soft Empty Hand Control issues for law enforcement officer The goal is to demonstrate to officers the understanding of the principles and appropriate use of Soft Empty Hand Control techniques Law Enforcement officers are authorized to use a range of force options to preserve the peace prevent crimes maintain order and apprehend suspects Soft empty hand techniques are the first option of physical response used to restrain a person who is resisting By developing a high degree of proficiency with soft empty hand techniques the officer will be able to respond in a more effective manner with a minimal amount of force A police officer experiences different kinds of adverse situations while performing his her duty Sometimes his her own life may be threatened due to a suspect s actions Therefore it is essential for the officer to know defensive tactics to protect him her and to control adverse situations In modern society police have different responsibilities such as crime investigation providing security crime control etc Therefore the officer must be aware of special tactics by which he she can defend him herself against stabbing grabbing pushing kicking using sharp and dangerous weapons and firearms Within a fraction of a second a police officer must be able to react properly otherwise it may prove to be a fatal situation Every officer must be aware of defensive tactics and should be able to apply them effectively whenever required Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement
