Get ready to learn about flowers!  
Flowers are plants that grow  
from a seed. The parts of a  
flower are stem, leaves, petals  
and seeds. They follow a life cycle  
that means as flowers grow  
die they make more flowers.

of combined experience in the profession we've gathered a lot of ideas to share. We know from our interactions with educators around the country that precious few quality resources exist to assist science teachers in the middle and this was a central impetus for updating *Doing Good Science in Middle School*. From the preface: This lively book contains the kind of guidance that could only come from veterans of the middle school science trenches. The authors know you're crazy busy so they made the book easy to use whether you want to read it cover to cover or pick out sections to help you with lesson planning and classroom management. They also know you face new challenges so they thoroughly revised this second edition to meet the needs of today's students. The book contains big picture concepts such as how to understand middle school learners and explore the nature of science with them; a comprehensive overview of science and engineering practices; STEM and inquiry-based middle school science instruction aligned with A Framework for K-12 Science Education and the Next Generation Science Standards; 10 new and updated teacher-tested activities that integrate STEM with literacy skill building; information on best instructional practices and professional development resources and connections to the Common Core State Standards in English language arts and mathematics. If you're a new teacher you'll gain a solid foundation in how to teach science and engineering practices while better understanding your often enigmatic middle grade students. If you're a veteran teacher you'll benefit from a fresh view of what your colleagues are doing in new times. Either way *Doing Good Science in Middle School* is a rich opportunity to reaffirm that what you do is good science.

**Student Successes with Thinking Maps® (School based research, results and models for achievement using visual tools (2nd Edition))** DAVID N. HYERLE, LARRY ALPER, Dr. Pat Wolfe

renown educator and expert in the practical applications of cognitive neurosciences offers this opening in her concise Forward to this book about the wide ranging uses of Thinking Maps. Neuroscientists tell us that the brain organizes information in networks and maps the Thinking Maps program takes full advantage of the natural proclivity of the brain to think visually. Student Successes with Thinking Maps presents a language of eight visual tools and framing tools based on fundamental cognitive processes of the human brain and mind that boost all learners' metacognitive and critical thinking skills. The first chapter by Thinking Maps creator David Hyerle, Ed.D., is a comprehensive introduction to the theory, history, research, and results from the systematic implementation of Thinking Maps over time. This book is rich in detail and inspiration from teachers, principals, and administrators from around the world and across diverse schools and systems. The wide ranging stories and supporting data across the 19 chapters weave together to create a unified theme of Thinking Maps as a transformational language for learning. From the authors of these chapters you will learn about school-wide changes in teachers' effectiveness and student performance in an inner city elementary school in Long Beach, California where 85% of the students entering classrooms speak Spanish as their first language; students with special needs in a middle school in North Carolina making performance leaps of over three years' growth in mathematics; girls from a single sex independent K-12 school in New Zealand rising over

four years to the top of that nation's educational ladder and entering junior college students in Mississippi significantly shifting reading comprehension scores while those in the nursing program dramatically outperform their peers of previous years. You will also hear about the Pass Christian School District landfall for Hurricane Katrina rising over the years to become the top performing school system in Louisiana. The authors of the chapters before you bring forth insights grounded in practical examples and experiences from their work to transform teaching and learning.
