Kaschula,H. Ekkehard Wolff,2020-09-10 Language has played a pivotal role in societal transformation in postcolonial Africa towards the creation of globally competitive knowledge societies however so far this role has been under researched and under estimated This volume addresses this gap in the literature by bringing together a team of globally recognised scholars to explore the effect of language on African postcolonial societies and how it has contributed to achieving mental decolonisation A range of languages are explored both imported ex colonial and indigenous African and case studies from different spheres of public discourse are investigated from universities to legal settings Demonstrating that multilingualism is a resource for rather than

barrier to successful transformation this book brings the intellectualisation and institutionalisation of African languages to the forefront of development discourse and provides an insightful snap shot of how current academic research public discourse political activism and social community engagement have contributed to societal transformation in South Africa

Controlled Natural Language Brian Davis,Kaarel Kaljurand,Tobias Kuhn,2014-07-21 This book constitutes the refereed proceedings of the 4th International Workshop on Controlled Natural Language CNL 2014 held in Galway Ireland in August 2014 The 17 full papers and one invited paper presented were carefully reviewed and selected from 26 submissions The topics include simplified language plain language formalized language processable language fragments of language phraseologies conceptual authoring language generation and guided natural language interfaces **Rules on the Web: From Theory to Applications** Antonis Bikakis,Paul Fodor,Dumitru Roman,2014-07-21 This book constitutes the refereed proceedings of the 8th International RuleML Symposium RuleML 2014 co located with the 21st European Conference on Artificial Intelligence ECAI 2014 held in Prague Czech Republic in August 2014 The 17 full and 6 short papers presented together with 3 keynote talks were carefully reviewed and selected from 48 submissions The papers cover the following topics semantic web rule languages and standards rule engines formal and operational semantics and rule based systems the relation between natural language and rules automation of business rules generation from existing data and aspects related to legal rules and norms for web and corporate environments Disrupting Higher Education Curriculum Michael Anthony Samuel,Rubby Dhunpath,Nyna Amin,2017-05-10 Discomfort with the inappropriateness of university curricula has met with increasing calls for disruptive actions to revitalise higher education This book conceived to envision an alternative emancipatory curriculum explores the historical ideological philosophical and theoretical domains of higher education curricula The authors acknowledge that universities have been and continue to be complicit in perpetuating cognitive damage through symbolic violence associated with indifference to the pernicious effects of race categorisation gender inequalities poverty rising unemployment and cultural hegemony as they continue to frame curricula cultures and practices The book contemplates the project of undoing cognitive damage offering glimpses to redesign curriculum in the 21st century The contributors international scholars emergent and expert researchers include different nationalities orientations and positionalities constituting an interdisciplinary ensemble which collectively provides a rich commentary on higher education curriculum as we know it and where we think it could be in the future The edited volume is a catalytic tool for disrupting canonised rituals of practice in higher education It has been a while since a scholarly book so authoritative in its claims and innovative in its concepts threatens to shake up the curriculum field at its foundations Rich in metaphor and meaning the superbly written chapters challenge a field that once more became moribund as we settled sic far too comfortably into accepting handed down frames and fictions about knowledge authority power and agency that imprint cognitive damage on those forced to the margins of schools and universities Disrupting Higher Education Curriculum demonstrates however that

it is in fact from those margins of the education enterprise that academics teachers and learners can see more clearly how patterns of thought and action hold us back from placing and experiencing our African humanity at the centre of the curriculum Jonathan Jansen Rector and Vice Chancellor of the University of the Free State South Africa *Digital Libraries: Providing Quality Information* Robert B. Allen,Jane Hunter,Marcia L. Zeng,2015-12-17 This book constitutes the refereed proceedings of the 17th International Conference on Asia Pacific Digital Libraries ICADL 2015 held in Seoul South Korea in December 2015 The 22 full papers 9 short papers 7 panels 6 doctoral consortiium papers and 19 poster papers presented were carefully reviewed and selected from 141 submissions The papers for this 2015 conference cover topics such as digital preservation gamification text mining citizen science data citation linked data and cloud computing *English-Medium Instruction and Translanguaging* BethAnne Paulsrud,Zhongfeng Tian,Jeanette Toth,2021-01-20 This book offers a critical exploration of definitions methodologies and ideologies of English medium instruction EMI contributing to new understandings of translanguaging as theory and pedagogy across diverse contexts It brings together a number of conceptual and empirical studies on translanguaging in EMI at different educational levels in a variety of countries with different approaches to translanguaging different named languages and different policies These studies include several underrepresented contexts across the globe providing a broad view of how translanguaging in EMI is understood in these educational settings Furthermore this book addresses the complexities of translanguaging through a discussion of the affordances and constraints associated with the use of multiple linguistic resources in the EMI classroom **Multilingual Universities in South Africa** Liesel Hibbert,Christa van der Walt,2014-04-03 Focusing on the use of African languages in higher education this book showcases South African higher education practitioners attempts to promote a multilingual ethos in their classes It is a first time overview of multilingual teaching and learning strategies that have been tried and tested in a number of higher education institutions in South Africa Despite language in education policies that extol the virtues of multilingualism practice remains oriented towards English only learning and teaching In the multilingual contexts of local campuses this book shows how students and lecturers attempt to understand their multiple identities and use the available languages to create multilingual learning environments Extended Curriculum Programmes Tennyson Mgutshini,2022-04-30 The introduction of ECPs in South African Universities is seen by many as South Africa s key strategy for addressing the problem of poor patterns of student success and has its basis on the uncontested acceptance that an extended study duration may be necessary to bring some categories of learners to a level of parity with the readiness expectations of their course of study Even so this transformative strategic imperative has been plagued by a range of challenges that include poor systems readiness poor selection mechanisms in the identification of ECP students poor numeracy and literacy amongst students and indifferent teacher involvement in ECPs This volume offers a rare insight into many of the above recognised challenges and in so doing provides critical matter for thought for educators within the higher

education sector   **Researching Multilingualism** Marilyn Martin-Jones,Deirdre Martin,2016-11-10 Pt 1 Researching trajectories multilingual repertoires and identities pt 2 Researching discourses policies and practices on different scales pt 3 Researching multilingual communication and multisemioticity online pt 4 Multilingualism in research practice voices identities and researcher reflexivity pt 5 Ethnographic monitoring and critical collaborative analysis for social change

   Transitivity, Valency, and Voice Denis Creissels,2024-10-15 This book sets up a consistent theoretical and terminological framework for the study of the phenomena that are commonly subsumed under the terms transitivity valency and voice These three concepts are at the heart of the most basic aspects of clausal structure in any language however there is considerable cross linguistic variation in the constraints on how verbs combine with noun phrases that refer to participants in the event that they denote or to the circumstances of the event In this book Denis Creissels explores and accounts for the extent of this cross linguistic variation capturing its regularities and examining the historical phenomena that have resulted in the emergence of constructions and markers The novel framework developed in the book allows similar phenomena to be identified across typologically diverse languages and facilitates systematic comparison of the manifestations of these phenomena in the grammars of individual languages   **Letters to my Native Soil** Lindy Stiebel,Therese Steffen,2014 Lewis Nkosi s influence as both a South African writer and critic has been profound His significance stems from the fact that he was one of the very few surviving members of the Drum generation of writers of the 1950s one who continued to write throughout the apartheid and post apartheid decades As an author of plays critical essays and novels Nkosi s voice is preserved in Letters to My Native Soil which collects correspondence between the writer and others and provides a valuable
