KANT AND THE THEORY AND PRACTICE OF INTERNATIONAL RIGHT

GEORG CAVALLAR

Kant And The Theory And Practice Of International Right

Arthur Ripstein

Kant And The Theory And Practice Of International Right:

Kant and the Theory and Practice of International Right Georg Cavallar, 2020-03-01 A similar book is Reidar Maliks Kant's Politics in Context Oxford Oxford University Press 2014 but it does not focus on international law Pauline Kleingeld's Kant and Cosmopolitanism The Philosophical Ideal of World Citizenship Cambridge Cambridge University Press 2012 touches upon international relations but is mainly a book on Kant's cosmopolitanism and a comparison with other 18c thinkers

The Oxford Handbook of the History of International Law Bardo Fassbender, Anne Peters, Simone Peter, Daniel Högger, 2012-11-01 The Oxford Handbook of the History of International Law provides an authoritative and original overview of the origins, concepts and core issues of international law. The first comprehensive Handbook on the history of international law, it is a truly unique contribution to the literature of international law and relations. Pursuing both a global and an interdisciplinary approach, the Handbook brings together some sixty eminent scholars of international law, legal history and global history from all parts of the world. Covering international legal developments from the 15th century until the end of World War II, the Handbook consists of over sixty individual chapters which are arranged in six parts. The book opens with an analysis of the principal actors in the history of international law, namely states, peoples and nations, international organisations and courts, and civil society actors. Part Two is devoted to a number of key themes of the history of international law, such as peace and war, the sovereignty of states, hegemony, religion, and the protection of the individual person. Part Three addresses the history of international law in the different regions of the world: Africa and Arabia, Asia, the Americas, and the Caribbean, Europe, as well as encounters between non-European legal cultures like those of China, Japan, and India, and Europe, which had a lasting impact on the body of international law. Part Four examines certain forms of interaction or imposition in international law, such as diplomacy as an example of interaction, or colonization and domination as an example of imposition of law. The classical juxtaposition of the civilized and the uncivilized is also critically studied. Part Five is concerned with problems of the method and theory of history writing in international law, for instance the periodisation of international law or Eurocentrism in the traditional historiography of international law. The Handbook concludes with a Part Six entitled People in Portrait, which explores the life and work of twenty prominent scholars and thinkers of international law, ranging from Muhammad al-Shaybani to Sir Hersch Lauterpacht. The Handbook will be an invaluable resource for students and scholars of international law. It provides historians with new perspectives on international law and increases the historical and cultural awareness of scholars of international law. It is the standard reference work for the global history of international law. Routledge International Handbook of Cosmopolitanism Studies Gerard Delanty, 2018-07-27 Cosmopolitanism is about the extension of the moral and political horizons of people, societies, organizations and institutions. Over the past 25 years, there has been considerable interest in cosmopolitan thought across the human social sciences. The second edition of the Routledge International Handbook of Cosmopolitanism Studies is an enlarged, revised and updated

version of the first edition It consists of 50 chapters across a broader range of topics in the social and human sciences Eighteen entirely new chapters cover topics that have become increasingly prominent in cosmopolitan scholarship in recent years such as sexualities public space the Kantian legacy the commons internet generations care and heritage This Second Edition aims to showcase some of the most innovative and promising developments in recent writing in the human and social sciences on cosmopolitanism Both comprehensive and innovative in the topics covered the Routledge International Handbook of Cosmopolitanism Studies is divided into four sections Cosmopolitan theory and history with a focus on the classical and contemporary approaches The cultural dimensions of cosmopolitanism The politics of cosmopolitanism World varieties of cosmopolitanism There is a strong emphasis in interdisciplinarity with chapters covering contributions in philosophy history sociology anthropology media studies international relations The Handbook's clear and comprehensive style will appeal to a wide undergraduate and postgraduate audience across the social and human sciences

The European Philosophers from Descartes to Nietzsche Monroe Beardsley, 2002-11-12 Between the earliest and the latest of the works included here we have two hundred and fifty years of vigorous and adventurous philosophizing Monroe Beardsley writes in his Introduction to this collection If the modern period can be only vaguely or arbitrarily bounded it can at least be studied and we can ask whether any dominant themes overall patterns of movement or notable achievements can be found within it This question is one that is best asked by the reader after he has read or read around in these works This Modern Library Paperback Classic also includes a newly updated Bibliography

Immanuel Kant Arthur Ripstein, 2017-05-15 Kant casts a long shadow over contemporary debates in political philosophy The Kantian roots of ideas of dignity autonomy equality and freedom under law are widely acknowledged Kant's own developments of those ideas in his explicitly political writings are taken up less frequently The aim of this volume is to help bring those contributions out of the shadows The articles and essays explore various dimensions of Kant's complex and powerful picture of the relation between morality and politics that Kant develops

Positive Peace in Theory and Practice Tuba Turan, 2015-10-20 Examining the shortcomings of eliciting sustainable intra state peace through the UN system and the underlying positive peace paradigm of the liberal traditions the book maintains that a novel positive peace vision and framework under the auspices of the UN is warranted Building upon grievance based explanations of violent conflicts and conflict transformation research this book develops a comprehensive positive peace framework that involves the early tackling of identity divisions i.e. Fundamental Conflicts through UN facilitated deliberative and dialogical processes at the 1.5 track diplomacy level This framework is designed to complement current UN post conflict peacebuilding and structural prevention practice By dealing both with how to operationalise early conflict prevention in a workable manner and developing a comprehensive yet viable positive peace approach this book entails an extensive interdisciplinary approach and new in depth analyses of the wide ranging normative and policy aspects of the quest of elevating positive peace to a core objective of UN practice

A Philosophy Of International Law

Fernando Teson, 2018-10-08 Why should sovereign states obey international law In this groundbreaking study Fernando Teson argues that an overlapping respect for human rights has created a moral common ground among the countries of the world It is this common set of values rather than self interest that ultimately provides legitimacy to international law Using the tools of moral philosophy Teson analyzes the concepts of sovereignty intervention and national interest the contributions of social contract theory game theory and feminist theory and the puzzles of self determination and group rights **Kantian Theory and Human Rights** Andreas Follesdal, Reidar Maliks, 2013-11-12 Human rights and the courts and tribunals that protect them are increasingly part of our moral legal and political circumstances The growing salience of human rights has recently brought the question of their philosophical foundation to the foreground Theorists of human rights often assume that their ideal can be traced to the philosophy of Immanuel Kant and his view of humans as ends in themselves Yet few have attempted to explore exactly how human rights should be understood in a Kantian framework The scholars in this book have gathered to fill this gap At the center of Kant's theory of rights is a view of freedom as independence from domination The chapters explore the significance of this theory for the nature of human rights their justification and the legitimacy of international human rights courts [The Continuum Companion to Kant](#) Gary Banham, Dennis Schulting, Nigel Hems, 2012-02-16 Including over 500 specially commissioned entries from a team of leading international scholars this is an essential reference to Kant's thought writings and continuing influence **Global Justice, Kant and the Responsibility to Protect** Heather Roff, 2013-06-26 This book provides an innovative contribution to the study of the Responsibility to Protect and Kantian political theory The Responsibility to Protect R2P doctrine has been heralded as the new international security norm to ensure the protection of peoples against genocide ethnic cleansing war crimes and crimes against humanity Yet for all of the discussion endorsements and reaffirmations of this new norm R2P continues to come under fire for its failures particularly and most recently in the case of Syria This book argues that a duty to protect is best considered a Kantian provisional duty of justice The international system ought to be considered a state of nature where legal institutions are either weak or absent and so duties of justice in such a condition cannot be considered peremptory This book suggests that by understanding the duty's provisional status we understand the necessity of creating the requisite executive legislative and judicial authorities Furthermore the book provides three innovative contributions to the literature study and practice of R2P and Kantian political theory it provides detailed theoretical analysis of R2P it addresses the research gap that exists with Kant's account of justice in states of nature and it presents a more comprehensive understanding of the metaphysics of justice as well as R2P This book will be of much interest to students of the Responsibility to Protect humanitarian intervention global ethics international law security studies and international relations IR in general

As recognized, adventure as with ease as experience roughly lesson, amusement, as capably as concurrence can be gotten by just checking out a book **Kant And The Theory And Practice Of International Right** with it is not directly done, you could agree to even more roughly this life, approximately the world.

We give you this proper as skillfully as easy pretentiousness to get those all. We allow Kant And The Theory And Practice Of International Right and numerous ebook collections from fictions to scientific research in any way. along with them is this Kant And The Theory And Practice Of International Right that can be your partner.
