

KONE MONOSPACE® 500

Environmental product declaration

KONE Environmental Product Declarations, or EPDs, provide independently verified information about the environmental performance of our products. EPDs are based on Life Cycle Assessment (LCA) data from studies carried out in compliance with the ISO 14040 standard.

This EPD lists all the components and environmental impacts of a representative sampling of our products throughout their life cycles, including energy and material consumption, waste generation, and emissions.

This EPD is a self-declaration developed in compliance with the ISO 14025 standard for Product Self-Declarations. The Life Cycle Assessment on which this EPD is based was jointly conducted by KONE and VTT Technical Research Centre of Finland.

Relations Board United States. National Labor Relations Board, 2002 *This is Service Design Thinking* Marc Stickdorn, Jakob Schneider, 2012-01-11 How to design and market services to create outstanding customer experiences

Service design thinking is the designing and marketing of services that improve the customer experience and the interactions between the service providers and the customers If you have two coffee shops right next to each other and each sell the exact same coffee at the exact same price service design is what makes you walk into one and not the other Maybe one plays music and the other doesn't Maybe one takes credit cards and the other is cash only Maybe you like the layout of one over the other or one has more comfortable seating Maybe the staff at one is friendlier or draws fun shapes on the top of their lattes All of these nuances relate to service design This Is Service Design Thinking combines the knowledge of twenty three international authors and even more online contributors from the global service design community and is divided into three sections Basics outlines service design thinking along five basic principles Tools describing a variety of tools and methods used in Service Design Thinking Cases vivid examples for the introduced fundamentals with real life case studies from 5 companies that did inspiring projects within the field of Service Design At the end a one page Customer Journey Canvas is included which can be used to quickly sketch any service on a single sheet of paper capturing different stakeholder concerns e.g. customers front line staff and management
