

Life Sciences Challenge 2013

Aims of the project

- Highlight the non-clinical career options available to pupils with 'a passion for Science.'
- Provide an opportunity for year 10 pupils to meet young scientists in a fun and informal setting before they make their further and higher education choices.
- Demonstrate that STEM careers are a real, achievable and accessible option.
- Stimulate interest in the Life Sciences beyond the taught curriculum, and thus help prepare interested students for further study later in their careers.
- Complement activity at higher-level Chemical and Biological Olympiads, taking place in some schools, which are written exams for A-level students run by the respective Royal Societies. A different quiz format and target age group will mean no overlap between these established competitions and the LSC/HGB quiz.
