case analyses into a coherent framework that includes legal history social context and public policy Taking a historical approach legal expert Henry F Fradella presents the law as it evolved from English common law and compares it with the modern statutory approach to crimes set forth in the American Law Institute s highly influential Model Penal Code After providing such comparative pedagogy for each crime or defense Criminal Law presents 12 edited cases that allow the reader to contrast how the black letter law plays out in the real world After each case a series of questions challenge students to engage in critical thinking about the case and its implications as precedent Finally chapters contain a number of additional pedagogical features that focus on public policy concerns and statutory interpretation skills using penal laws from a variety of U S states
