Many practical issues arise in conjunction with this life transition. Examples include announcing a pregnancy or an imminent adoption, planning parental leave, and covering the patient's needs during the hiatus. In this second edition, therapists who are members of LGBT families and single parent families are described in terms of their special needs, challenges, and resources. This updated edition also contains a new chapter on special problems that can arise during pregnancy.

The gentleman's mistress Tim Thornton, Katharine Carlton, 2019-04-04 This study explores pre- and extra-marital relationships among the gentry and nobility of the north of England from 1450 to 1640: the keeping of mistresses, the taking of lovers, the birth of illegitimate children, and the fate of those children. Our Studies, Ourselves Barry Glassner, Rosanna Hertz, 2003 What motivates a lifelong scholarly pursuit and how do one's studies inform life outside the academy Sociologists who live in families but also study families who go to work but also study work who participate in communities but also try to understand communities have an especially intimate relation to their research Growing up poor struggling as a woman in a male dominated profession participating in protests against the Vietnam War facts of life influence research agendas individual understandings of the world and ultimately the shape of the discipline as a whole Barry Glassner and Rosanna Hertz asked twenty two of America's most prominent sociologists to reflect upon how their personal lives influenced their research and vice versa how their research has influenced their lives In this volume the authors reveal with candor and discernment how world events political commitments and unanticipated constraints influenced the course of their careers They disclose how race class and gender proved to be pivotal elements in the course of their individual lives and in how they carry out their research Faced with academic institutions that did not hire or promote persons of their gender race sexual orientation or physical disability they invented new routes to success within their fields Faced with disappointments in political organizations to which they were devoted they found ways to integrate

their disillusionment into their research agendas While some of the contributors radically changed their political commitments and others saw more stability none stood still An intimate look at biography and craft these snapshots provide a fascinating glimpse of the sociological life for colleagues other academics and aspiring young sociologists The collection demonstrates how inequalities and injustices can be made into motors for scholarly research which in turn have the power to change individual life courses and entire societies
