McKinsey Report On It:

McKinsey's Marvin Bower Elizabeth Haas Edersheim, 2010-12-13 I had the privilege of working closely with Marvin and McKinsey for many years This book makes Marvin come to life and perpetuates him as a role model Peter F Drucker A wonderful book about a wonderful man In many ways Marvin s McKinsey framed the hypotheses in our own search for excellence for example passion for values belief in people as the prime resource and willingness to let people experiment As well as I thought I knew Marvin however this remarkable book drawing on the collective memories of those who worked most closely with him taught me a ton about how extraordinary the man really was and what made him that way Many have called Drucker the man who invented management I think history will conclude that both he and Marvin Bower share that pedestal Bob Waterman coauthor of *In Search of Excellence* Marvin Bower became a legend not just within McKinsey Company but within professional services and the business world more broadly In everything he did and said he embodied the professional approach and the importance of values This book sheds remarkable insight on a remarkable man and on the power of constancy of purpose Ian Davis Worldwide Managing Director McKinsey Co It is as Marvin would have wanted it simple honest fact based wonderful stories with a long term perspective An insightful read about the father of management consulting Lois Juliber retired COO Colgate Palmolive This book provides fascinating insight into the early days of modern management consulting It is an extremely enlightening look at the origin of one of America s most important professions and one of America s most innovative leaders Thomas H Lee founder Chairman and President Thomas H Lee Partners L P

Federal Maritime Board, 1961 The Broken Rung Kweilin Ellingrud, Lareina Yee, Maria del Mar Martinez, 2025-03-11 The broken rung is more pervasive than the glass ceiling in holding women back from career success Three McKinsey senior partners offer strategies for overcoming it and fulfilling your potential Women around the world do extremely well when it comes to their education They graduate at higher rates than men and have higher average GPAs But then a strange thing happens upon entering the workforce they immediately lose their advantage When the first promotions come around the slide continues For every 100 men promoted to manager only 81 women overall and 77 women of color get promoted This is what McKinsey senior partners Kweilin Ellingrud Lareina Yee and Mar a del Mar Mart nez call the broken rung and its effects compound throughout women s careers causing them to fall behind at the start and keeping them from catching up In this groundbreaking book the authors reveal the problem s underlying cause while about half of a person s

lifetime earnings come from education and half from work experience men get more value from their experience than women do It is also here in one's work experience that the solution lies women need to build their experience capital to level the playing field and maximize their earning potential The book combines over a decade of research personal conversations with more than fifty remarkable leaders and the authors own rich experiences as leaders at McKinsey They weave data on the potential pitfalls with inspiring and instructive stories of women who have climbed over the broken rung using strategies that increased their experience capital Leaders and companies must do more to address gender inequalities in the workplace But you don't have to wait The Broken Rung is your guide right now for moving up the career ladder and reaching your full potential at work

Education in Spite of Policy Robin Alexander, 2021-12-30 A national system of education cannot function without policy But the path to practice is seldom smooth especially when ideology overrules evidence or when ministers seek to micromanage what is best left to teachers And once the media join the fray the mixture becomes downright combustible Drawing on his long experience as teacher researcher government adviser campaigner and international consultant and on over 600 published sources Robin Alexander expertly illustrates and illuminates these processes This selection from his recent writing some hitherto unpublished opens windows onto cases and issues that concern every teacher Part 1 tackles system level reform It revisits the Cambridge Primary Review an evidence rich enquiry into the condition and future of primary education in England which challenged the UK government's policies on curriculum testing standards and more besides Here the reform narratives and strategies of successive governments are confronted and dissected Part 2 follows the development of England's current National Curriculum exposing its narrow vision and questionable use of evidence and offering a more generous aims driven alternative This section also investigates the expertise and leadership needed if children are to experience a curriculum of the highest quality in all its aspects Part 3 reaches the heart of the matter securing the place in effective pedagogy of well founded classroom talk a mission repeatedly frustrated by political intervention The centrepiece is dialogic teaching a proven tool for advancing students speaking thinking learning and arguing and an essential response to the corrosion of democracy and the nihilism of post truth Part 4 goes global It investigates governments PISA fuelled flirtations with what they think can be adapted or copied from education elsewhere examines the benefits and pitfalls of international comparison and ends with the ultimate policy initiative the United Nations mission to ensure inclusive and equitable quality education for all the world's children Education in Spite of Policy is for all those teachers students school leaders and researchers who value the conversation of policy evidence and practice and who wish to explore the parts of education that policy cannot reach
