Law from Below Elisabeth Rain Kincaid, 2024 This book describes a political theology which provides a mode of engagement with unjust laws It argues that the theology of Francisco Suarez SJ an early modern legal theorist and theologian which was developed to combat an authoritarian view of law may be successfully retrieved to provide a constructive model of legal engagement for Christians today including the possibility that communities may work to change law from the ground up as they function within the legal system not just outside it His theory of law thus provides a theologically robust way to mount a counter narrative to contemporary authoritarian theories of law while still acknowledging the good in the rule of law and its imposition by a legislative authority He acknowledges the crucial contribution of citizens to improving law's moral content without removing the importance of law's own authority or the role of the lawgiver *And Then...
