finance is no different. The difference is in the behavior regulated and the potential negative impacts of a complex regulatory system. Candidates running for office must take time and effort to learn and comply with campaign finance regulations to compete in an election. If campaign finance regulations are complex, the time and effort required to learn and comply increases and has the potential to take candidates away from campaigning. This book studies whether states with complex regulations have fewer candidates running for office or more candidates withdrawing their candidacy after starting a campaign. This potentially negative consequence of campaign regulations impacts participation rates for individuals running for office. In a democracy, we desire more candidates in order to maintain a diverse candidate pool, but a complex regulatory system may adversely affect that goal by increasing candidate costs.
