Only the remaining 8% of the online usage is shared by the other search engines like Bing Yahoo Baidu Yandex and DuckDuckGo. When it comes to Google Ads you need to pay for Google when any of the users from the Google Search clicks on your ads and lands on your website. Both SEO Google PPC has its own pros and cons. The main advantage of the SEO is that you don't need to pay for Google for the users landing on your website from the search. But you need to invest more on SEO to rank the website on top of the SERP's Search Engine Results Page for the potential search terms. When it comes to Google PPC you need to pay to Google for each and every click that you receive on your ads on.
