Book Production Guide Faktorovich, Anna, 2015-03 Explains all of the steps involved in creating a book with the Anaphora Literary Press. It is designed as a tool for editorial marketing and design interns of the press. It can also be used by publishing industry professionals who are working for other publishing houses, want to start their own press or want to self-publish their book. This book can be a great tool in editing, marketing and design college classes. The fourth edition of the Guide includes more detailed design and marketing advice and a long section with marketing lists of book reviewers, libraries and bookstores that hold readings. You'll also find instructions for making YouTube book trailers and Smashwords E Books. Authors shouldn't set out on new book production and marketing ventures without reviewing the helpful information provided.

Formatting for Print Reese Patton, Formatting for Print gives self-publishers all the tools they need to design and format a book indistinguishable from traditionally published books. There are no rules in book design, only conventions you throw away when they no longer work. Formatting for Print gives you the knowledge to decide when to throw those conventions to the wayside and when to try to make them work. This book is both an introductory course on typography and an overview of interior book design used by traditional publishers. By the end of the book, you'll learn what information to include in your print book: how to find the best typeface for your book, how to set your book. You'll also have a basic template for all your print book needs.

An advanced template for InDesign that can be used to generate both a PDF and an epub. A CSS to use for your epubs.
