Infant Baptism And The Silence Of The New Testament:

Infant Baptism and the Silence of the New Testament Bryan Holstrom, 2015-01-24 Since the time of the Reformation some Christians have argued that the historic church's practice of infant baptism is without proper biblical warrant. The most frequently heard refrain from those in this camp is that because the New Testament contains no explicit command to baptize the infant children of believers, the practice is ultimately based upon an argument from silence. In *Infant Baptism and the Silence of the New Testament* Bryan Holstrom turns that assertion on its head by demonstrating that far from being an argument against infant baptism, the silence of the New Testament in this regard is actually support for the practice. Moreover, he demonstrates that the New Testament actually has much to say in support of the baptism of infants, albeit in indirect but important ways. The result is a straightforward and non-technical presentation of the biblical case for infant baptism that is designed to help Christians on both sides of the divide better understand the issues involved and appreciate the covenantal basis upon which the Reformed church retained the historic practice. *A Treatise on Infant Baptism*

Pentecostal Movements for Lutherans Sarah Hinlicky Wilson, 2016-07-06 In just over a century, Pentecostalism has rocketed from its humble beginnings in an interracial congregation on Azusa Street in Los Angeles to a global movement counting more than six hundred million members. Confronted with the bewildering array of Pentecostal, Charismatic, and Neoevangelical beliefs and practices, Lutherans are often at a loss as to how to think about Pentecostals, much less how to engage them in positive ways that build up the whole body of Christ. In this guide, Lutherans will find tools for just such an engagement. Building on a foundation of Pentecostalism's history and varieties, Wilson undertakes an in-depth survey of biblical teaching on baptism, the Holy Spirit, and spiritual gifts. The guide then brings innovative new lenses to bear on the questions at stake: the use of church history in defending denominational borders; right and wrong approaches to prosperity; the power of the Spirit and corruptions of power; and the role of experience in theological discernment. Written in a style accessible to laity and clergy alike, this guide will strengthen Lutherans' appreciation of their own tradition while enabling them to encounter Pentecostals as fellow believers in the salvation given by the triune God. *Minutes of the ... The Christian church confesses one baptism But the church s answers to how whom and when to baptize and even what it means or does are famously varied This Spectrum Multiview volume provides a forum for thoughtful proponents of three principal evangelical views to state their case respond to the others and then provide a summary response and statement Sinclair Ferguson sets out the case for infant baptism Bruce Ware presents the case for believers baptism and Anthony Lane argues for a mixed practice As with any good conversation on a controversial topic this book raises critical issues challenges preconceptions and discloses the soft points in each view Evangelicals who wish to understand better their own church s practice or that of their neighbor or who perhaps are uncertain of their own views will value this incisive book Spectrum Multiview Books offer a range of viewpoints on contested topics within Christianity giving contributors the opportunity to present their position and also respond to others in this dynamic publishing format **Ecclesiology** Mark W.
