Gollapudi,2013-10-23 Standard tutorial based approach Getting Started with Greenplum for Big Data Analytics is great for data scientists and data analysts with a basic knowledge of Data Warehousing and Business Intelligence platforms who are new to Big Data and who are looking to get a good grounding in how to use the Greenplum Platform It s assumed that you will have some experience with database design and programming as well as be familiar with analytics tools like R and Weka

Use of Services for Family Planning and Infertility, United States, 1982 Gerry E. Hendershot,Marjorie C.

Horn,William D. Mosher,1988 The 1982 statistics on the use of family planning and infertility services presented in this report are preliminary results from Cycle III of the National Survey of Family Growth NSFG conducted by the National Center for Health Statistics Data were collected through personal interviews with a multistage area probability sample of 7969 women aged 15 44 A detailed series of questions was asked to obtain relatively complete estimates of the extent and type of family planning services received Statistics on family planning services are limited to women who were able to conceive 3 years before the interview date Overall 79% of currently married nonsterile women reported using some type of family planning service during the previous 3 years There were no statistically significant differences between white 79% black 75% or Hispanic 77% wives or between the 2 income groups The 1982 survey questions were more comprehensive than those of earlier cycles of the survey The annual rate of visits for family planning services in 1982 was 1077 visits 1000 women Teenagers had the highest annual visit rate 1581 1000 of any age group for all sources of family planning services combined Visit rates declined sharply with age from 1447 at ages 15 24 to 479 at ages 35 44 Similar declines with age also were found in the visit rates for white and black women separately Nevertheless the annual visit rate for black women 1334 1000 was significantly higher than that for white women 1033 The highest overall visit rate was for black women 15 19 years of age 1867 1000 Nearly 2 3 of all family planning visits were to private medical sources Teenagers of all races had higher family planning service visit rates to clinics than to private medical sources as did black women age 15 24 White women age 20 and older had higher visit rates to private medical services than to clinics Never married women had higher visit rates to clinics than currently or formerly married women Data were also collected in 1982 on use of medical services for infertility by women who had difficulty in conceiving or carrying a pregnancy to term About 1 million ever married women had 1 or more infertility visits in the 12 months before the interview During the 3 years before interview about 1 9 million women had infertility visits For all ever married women as well as for white and black women separately infertility services were more likely to be secured from private medical sources than from clinics The survey design reliability of the estimates and the terms used are explained in the technical notes *Proceedings of the Mediterranean Conference on Information & Communication Technologies 2015* Ahmed El Oualkadi,Fethi Choubani,Ali El Moussati,2016-04-15 This volume presents the second part of the proceedings of the Mediterranean Conference on Information Communication Technologies MedICT 2015

which was held at Saidia Morocco during 7-9 May 2015. MedICT provides an excellent international forum to the researchers and practitioners from both academia as well as industry to meet and share cutting edge development. The conference has also a special focus on enabling technologies for societal challenges and seeks to address multidisciplinary challenges in Information Communication Technologies such as health, demographic change, wellbeing, security and sustainability issues. The proceedings publish high quality papers which are closely related to the various theories as well as emerging and practical applications of particular interest to the ICT community. This second volume provides a compact yet broad view of recent developments in Data Systems, Services and Education and covers recent research areas in the field including Control Systems, Software Engineering, Data Mining and Big Data, ICT for Education and Support Activities, Networking, Cloud Computing and Security, ICT Based Services and Applications, Mobile Agent Systems, Software Engineering, Data Mining and Big Data, Online Experimentation, Artificial Intelligence in Education, Networking, Cloud Computing and Security, ICT Based Education and Services, ICT Challenges and Applications, Advances in ICT Modeling and Design, ICT Developments. Benn's Media Directory, 1991 **Database Design and Implementation** Leszek Maciaszek, 1990
