The Power Distribution schematic shows the wiring from the battery and generator to the starter solenoid, relay box, fuse box, starter switch and light switch. The first component after a fusible link is also shown. In certain instances, the first component after a fuse box fuse and light switch is also shown.

The Power Distribution schematic refers to Fuse Box Details and Lighting Switch Details schematics. By using these three (3) schematics, power distribution wiring can be followed from the battery and generator to the first component after a fusible link, fuse, and light switch.
