Life Orientation September Question Paper 2012:

Older People: Improving Health and Social Care Bea L. Dijkman, Irma Mikkonen, Petrie F. Roodbol, 2018-11-11 This contributed volume is based on the European Core Competences Framework for health and social care professionals working with older people ECCF developed and verified in a unique international cooperation between 26 universities and universities of applied sciences in 25 European countries part of the European Later Life Active Network ELLAN In addition to the framework the book outlines the necessary qualifications and describes the roles of professionals working with older people in health and social services It explores healthy ageing for older people from different perspectives and describes the seven roles of health and social care professionals Expert Communicator Collaborator Organizer Health and Welfare Advocate Scholar and Professional before going on to define 18 related competences and elaborating them in performance indicators Beyond the ECCF the book explains the widely used CanMED role model and puts forward theories to support a client centered and integrated approach on health and social care in order to change attitudes toward older clients and offer better care and support It also provides health and social care professionals for example nurses allied health professionals and social workers with new contextual information and cultural awareness It gives a voice to students by addressing selected perspectives for professional development The book includes questions for reflective learning helping to make the book a vital practical instrument for use in the educational context throughout Europe Europe's ageing populations represent a major challenge for both public health and social care systems 18% of the population is 65 years old and over and this proportion will increase in the coming years As a result more and more health and social care professionals will work with older people in different settings at home in the community in hospitals or in long term care settings Older people and especially the frail face a host of interrelated issues e.g cognitive restrictions functional restrictions psychosocial problems multimorbidity polypharmacy and social isolation These problems call for an integrated approach to health and social care which this book supplies It is intended for health and social care professionals students and educators for a better understanding of Europe's ageing society and of the impact on care and services Furthermore the ECCF offers educational institutes a unique resource for curriculum development education training and assessment

Sexual Orientation, Gender Identity, and Schooling Stephen Thomas Russell, Stacey S. Horn, 2017 Sexual Orientation Gender Identity and Schooling brings together contributions from a diverse group of researchers policy analysts and education advocates from around the world to synthesize the practice and policy implications of research on sexual orientation gender identity and schooling

The Horizontal Effect of Fundamental Rights in the European Union Eleni Frantziou, 2019-01-31 This book analyses the horizontal effect of fundamental rights in the European Union from a constitutional perspective It advances two main arguments First it argues that the horizontal effect of fundamental rights i.e their application to disputes between private parties cannot be usefully discussed based on the existing EU horizontality doctrine which associates horizontality

with the exercise of horizontal direct effect only That doctrine is characterised by a series of overly technical rules as to how the latter may be produced and has a case specific nature that lacks overall constitutional coherence Secondly the book argues that a substantive theory of horizontality is required in EU law and sketches its main parameters In the fundamental rights context horizontal effect has organisational implications for society which go beyond specific intersubjective disputes It is argued that its determination requires an explicit recognition of the public character of certain private platforms of will formation e g the workplace and a discussion of the role of fundamental rights therein At the same time a constitutionally adequate model of horizontality involves an acknowledgment of the supranational character of EU adjudication the determination of horizontal applicability of a fundamental right within a type of private authority relationship falls upon the Court of Justice but the precise manifestation of horizontal effect e g direct indirect or state mediated effect rests with national courts

Locative Media Rowan Wilken, Gerard Goggin, 2014-08-07 Not only is locative media one of the fastest growing areas in digital technology but questions of location and location awareness are increasingly central to our contemporary engagements with online and mobile media and indeed media and culture generally This volume is a comprehensive account of the various location based technologies services applications and cultures as media with an aim to identify inventory explore and critique their cultural economic political social and policy dimensions internationally In particular the collection is organized around the perception that the growth of locative media gives rise to a number of crucial questions concerning the areas of culture economy and policy

Predisposed John R. Hibbing, Kevin B. Smith, John R. Alford, 2013-09-23 Buried in many people and operating largely outside the realm of conscious thought are forces inclining us toward liberal or conservative political convictions Our biology predisposes us to see and understand the world in different ways not always reason and the careful consideration of facts These predispositions are in turn responsible for a significant portion of the political and ideological conflict that marks human history With verve and wit renowned social scientists John Hibbing Kevin Smith and John Alford pioneers in the field of biopolitics present overwhelming evidence that people differ politically not just because they grew up in different cultures or were presented with different information Despite the oft heard longing for consensus unity and peace the universal rift between conservatives and liberals endures because people have diverse psychological physiological and genetic traits These biological differences influence much of what makes people who they are including their orientations to politics Political disputes typically spring from the assumption that those who do not agree with us are shallow misguided uninformed and ignorant *Predisposed* suggests instead that political opponents simply experience process and respond to the world differently It follows then that the key to getting along politically is not the ability of one side to persuade the other side to see the error of its ways but rather the ability of each side to see that the other is different not just politically but physically *Predisposed* will change the way you think about politics and partisan conflict As a bonus the book includes a Left Right 20 Questions game to test whether your predispositions lean liberal or

conservative The Ecosocial Transition of Societies Aila-Leena Matthies,Kati Närhi,2016-10-04 This groundbreaking book both explains and expands the growing debate on ecological environmental social work at the global level In order to achieve this the book strengthens the environmental paradigm in social work and social policy by undertaking further research on theoretical and conceptual clarification as well as distinct reflections on its practical directions Divided into five parts concepts the impact of environmental crises sustainable communities and lifestyles food politics and the profession in transition this work s main objective is to place ecological social work as a part of the more comprehensive and interdisciplinary eco social transition of societies towards sustainability balancing economic and social development with the limited resources of the natural environment By focussing on these five core concepts it shows how social work and social policy contribute to this transition through having a research based approach and orientation on solutions rather than problem analysis The book will be of interest to scholars from a broad range of disciplines including those in social work and social policy sustainability economics agriculture and environmental studies **Economic Challenges of Pension**

Systems Marta Peris-Ortiz,José Álvarez-García,Inmaculada Domínguez-Fabián,Pierre Devolder,2020-03-20 This book examines the major economic challenges associated with the sustainability of public pensions specifically demographic change labor market relations and risk sharing The issue of public pensions occupies the political and economic agendas of many major governments in the world International organizations such as the World Bank and the OECD warn that the economic changes driven by an aging society negatively affects the sustainability of pension systems This book analyzes different global public pension systems to offer policies methods and tools for sustainable public pensions Real case studies from France Sweden Latin America Algeria USA and Mexico are featured **Programs and Services** National Library of Medicine (U.S.),2012 **SOGI Minority and School Life in Asian Contexts** Makiko Kasai,Yuichi Toda,Stephen

Russell,2023-09-01 Representing an often overlooked population this book explores the experiences of LGBTQ youth in Asian countries Contributors focus on LGBTQ youth s school life experiences including bullying and violence a pervasive and serious problem This book aims to inform psychologists mental health providers and school professionals about the needs of LGBTQ youth from eight different Asian countries Individual chapters present unique aspects of LGBTQ youth experiences in school contexts from different cultural perspectives In addition the intersectionality of LGBTQ and other minorities including ethnicity religion and social class highlights multiple sources of oppression or discrimination that can create additional pressures and stress for youth The concepts of inter minority conflict and inter minority empathy are introduced to understand minority issues from new perspectives This is a valuable reference for psychologists social workers counselors nurses mental health professionals and students whether preparing for general practice treating LGBTQ clients or supporting LGBTQ youth in schools around the world **The Paradox of Parliament** Jonathan Malloy,2023-02-27 The Paradox of Parliament provides a comprehensive analysis of all aspects of Parliament in order to explain the paradoxical

expectations placed on the institution The book argues that Parliament labours under two different logics of its purpose and primary role one based on governance and decision making and one based on representation and voice This produces a paradox that is common to many legislatures but Canada and Canadians particularly struggle to recognize and reconcile the competing logics In *The Paradox of Parliament* Jonathan Malloy discusses the major aspects of Parliament through the lens of these two competing logics to explain the ongoing dissatisfaction with Parliament and perennial calls for parliamentary reform It focuses on overarching analytical themes rather than exhaustive description It centres people over procedure and theory with strong emphasis given to dimensions of gender race and additional forms of diversity Arguing for a holistic and realistic understanding of Parliament that recognizes and accepts that Parliament evolves and adapts *The Paradox of Parliament* puts forward an important and novel interpretation of the many facets of Parliament in Canada
