The Fiscal Year 2016 Budget Request for the Department of the Interior United States. Congress. Senate. Committee on Energy and Natural Resources, 2015 **The Cuban Missile Crisis** Len Scott, R. Gerald Hughes, 2015-04-10

This volume brings together a collection of leading international experts to revisit and review our understanding of the Cuban Missile Crisis via a critical reappraisal of some of the key texts. In October 1962 humankind came close to the end of its history. The risk of catastrophe is now recognised by many to have been greater than realised by protagonists at the time or scholars subsequently. The Cuban missile crisis remains one of the most intensely studied moments of world history. Understanding is framed and informed by Cold War historiography, political science and personal experience written by scholars, journalists and surviving officials. The emergence of Soviet, later Russian and other national narratives has broadened the scope of enquiry while scrutiny of the operational, especially military dimensions, has challenged assumptions about the risk of nuclear war. *The Cuban Missile Crisis: A Critical Reappraisal* brings together world leading scholars from America, Britain, France, Canada and Russia to present critical scrutiny of authoritative accounts and to recast assumptions and interpretations. The book aims to provide an essential guide for students of the missile crisis, the diplomacy of the Cold War and the dynamics of historical interpretation and reinterpretation. Offering original ideas and agendas, the contributors seek to provide a new understanding of the secrets and mysteries of the moment when the world went to the brink of Armageddon. This book will be of great interest to students of the Cuban missile crisis, Cold War Studies, nuclear proliferation, international history and International Relations in general.

The Legacy of Wilfred Cantwell Smith Ellen Bradshaw Aitken (1961–2014), Arvind Sharma, 2017-03-15

First work to address the legacy of Wilfred Cantwell Smith and his influence on the development of religious studies and Islamic studies in the twentieth century. This is the first work to address the legacy of Wilfred Cantwell Smith (1916–2000) whose intellectual and institutional contributions helped shape the field of religious studies in the latter half of the twentieth century. As a young scholar, Smith taught Indian and Islamic history in Lahore for several years and witnessed the partition of India. Upon his return to North America, he obtained his PhD at Princeton University before embarking upon a long and distinguished career. He founded the Institute of Islamic Studies at McGill University and served as director of the Center for the Study of World Religions at Harvard University. Smith emphasized the place of the scholarly study of Islam in the Western academy long before Islam occupied its current position at the center of global politics, challenged the notion of monolithic world religions and argued for the importance of dialogical processes and a personalist approach to the study of religion. Contributors to this volume, many of whom were Smith's students, provide a wide-ranging exploration of his influence and legacy.

Arab Dawn Bessma Momani, 2015-11-26

In the West, news about the Middle East is dominated by an endless stream of reports and commentary about civil war, sectarian violence, religious extremism and economic stagnation. But do they tell the full story? For instance, who knew that university

enrolment in the war torn Palestinian territories exceeds that of Hong Kong or that more than a third of Lebanese entrepreneurs are women Change is on its way in the Middle East argues Bessma Momani and its cause is demographic Today one in five Arabs is between the ages of fifteen and twenty four Young optimistic and increasingly cosmopolitan their generation will shape the region s future Drawing on interviews surveys and other research conducted with young people in fifteen countries across the Arab world Momani describes the passion for entrepreneurship reform and equality among Arab youth With insightful political analysis based on the latest statistics and first hand accounts Arab Dawn is an invigorating study of the Arab world and the transformative power of youth BioWatch United States. Congress. House. Committee on Homeland Security. Subcommittee on Emergency Preparedness, Response and Communications,2014 Greedy Science Michael D. Gordin,W. Patrick McCray,2025-02-18 The authors in this edited collection of essays explore this particular attribute greed by looking how it informed intersected and interlaced with science and technology and scientists and technologists during the 1980s During this decade greed although undeniably present in earlier eras became an extensive expansive and at times explicit characteristic of science both in the United States and around the world 3 The global scientific community was reshaped in a multitude of ways large and small by money fame and the pursuit of celebrity
