Marvin D. Pipher

Manual Mac Hunter:

Changing the Course Peter May, 2024-02-20 The compelling little known story of golfer Charlie Sifford and attorney Stanley Mosk who together made history by taking on the PGA and their Caucasians Only by law It began with a chance meeting at a Los Angeles country club in 1959 That was the day Charlie Sifford the first Black golfer to get his PGA card and Stanley Mosk a crusading attorney general of California and future state Supreme Court justice met for the first time Little did either of them know that it would grow into a history making alliance that would end segregation in professional golf In Changing the Course How Charlie Sifford and Stanley Mosk Integrated the PGA Peter May tells the captivating story of Sifford and Mosk s battle to end the rank racial discrimination that had been codified in the constitution of the PGA Black golfers who preceded Sifford such as Bill Spiller and Ted Rhodes had unsuccessfully challenged the PGA s discriminatory policy Sifford had been fighting the PGA for years just to be able to compete with the white players Mosk had little knowledge of the PGA or the fact that Blacks were being discriminated against by the organization s by laws But the golfer had a cause that the attorney general was only too eager to champion The two made for a powerful pair Changing the Course focuses on the individual journeys of Sifford and Mosk before delving into the crucial intersection of their lives that changed the professional golf world forever Their stories provide a window into the changing landscape of mid 20th century America when the nation was forced to confront its history of racial injustice in professional sports and beyond **Willing's Press**

Pipher, 2022-07-22 Traumatized as a child Marty Wilkens struggles to come to grips with himself and to understand the dark forces driving his life He may have been seen as living a normal childhood But inwardly Marty lived in a world of his own creation It was a dark and dangerous world which influenced everything he thought and did and which ultimately framed his perception of himself small weak not very bright and always a failure Fortified by one misadventure after another that perception was firmly implanted in his mind All that changed however when Marty joined the US Navy where removed from his childhood environment he was able to gauge himself against other boys his own age And he found that he wasn't what he thought he was Instead he was a strong confident popular successful and typical young sailor that is until his childhood trauma came back to haunt him this time with a vengeance that all but destroyed his life Returning home after his service he found that nothing had changed and soon was again the boy he once was but now driven to succeed if for no other reason than to prove to himself that he could do it Faced with a choice of majors he chose electronic engineering because it was thought to be the most difficult course of study Later sensing that something was wrong with him emotionally and deeming it psychological he embarked on a private journey hoping to unearth the root cause of his problems After reading several books on psychology he attempted self analysis The effects were devastating He became paranoid and began having thoughts of suicide Ultimately an unexpected event forced him to confront the truth and his childhood trauma was finally brought into the light of day *Catalog of Copyright Entries.
