*Desperately Seeking Self-Improvement* Carl Cederström and André Spicerm, 2017-10-20 In these pages the authors of the widely acclaimed *The Wellness Syndrome* throw themselves headlong into the world of self optimization a burgeoning movement that seeks to transcend the limits placed on us by being merely human whether the feebleness of our bodies or our

mental incapacities Cederstrom and Spicer though willing guinea pigs in an extraordinary and sometimes downright dangerous range of techniques and technologies had hitherto undertaken little by way of self improvement They had rarely seen the inside of a gym let alone utilized apps that deliver electric shocks in pursuit of improved concentration But in the course of a year spent researching this book they wore head bands designed to optimize meditation attempted to boost their memory through learning associative techniques and failed to be admitted to MENSA trained for weightlifting competitions wrote what they still hope might become a bestselling Scandinavian detective story enrolled in motivational seminars and tantra sex workshops attended new age retreats and man camps underwent plastic surgery and experimented with vibrators and productivity drugs Andr even addressed a London subway car whilst nearly naked in an attempt to boost attention Somewhat surprisingly the two young professors survived this year of rigorous research Further they have drawn deeply on it to produce a hilarious and eye opening book Written in the form of two parallel diaries *Desperately Seeking Self Improvement* provides a biting analysis of the narcissism and individual competitiveness that increasingly pervades a culture in which social solutions are receding and individual self improvement is the only option left *Step Into Nature* Patrice Vecchione, 2015-03-31 The natural world has inspired artists seekers and thinkers for millennia but in recent times as the pace of life has sped up its demands have moved us indoors Yet nature's capacity to lead us to important truths to invigorate and restore our imagination and equilibrium is infinite *Step Into Nature* is a guide to make nature personal again to stimulate awareness and increase our understanding of the environment while inspiring readers to develop and strengthen their imaginations But being in nature doesn't mean flying off to remote faraway places Nature is as close as opening your front door the sky above the miniature gardens that insist their way up between the sidewalk cracks the river just down the road Patrice Vecchione shows readers how nature can support and enhance their own creative output invigorate their curiosity and restore their sense of connection to the earth Plus included in each chapter is *The Cabinet of Curiosities* exercises and suggestions for practical and unexpected ways that readers can stimulate their imaginations deepen their relationships with nature and experience the harmony between creativity and the natural world *The Elements of Blogging* Mark Leccese, Jerry Lanson, 2015-07-16 Becoming a blogger takes practice hard work and ultimately a passion for the craft Whether you plan to blog on politics or parenting *The Elements of Blogging* is designed to give you the skills and strategies to get started to sustain your work and to seek out a robust audience This book is loaded with practical advice on important topics such as determining a niche finding the best stories and blogging effectively and ethically It features examples from both amateur and professional bloggers that show the techniques for building an argument finding a voice crafting a headline and establishing a brand Key features Real world applicability This book includes thumbnail profiles of bloggers and their sites which illuminate key skills you will need to become an effective blogger Interactivity Each chapter features discussion points and exercises intended to get you to think about reflect on and apply the contents of each chapter

Creativity While this book dives into software and plug ins for bloggers its main goal is to cover how to write blogs on a myriad of topics news opinion pieces travel politics art and more Visit the companion website <http://www.theelementsofblogging.com>
