Mobilizing the Information Society Robin Mansell, William Edward Steinmueller, 2000 This work offers an assessment of progress made towards the information society It begins from the premise that the construction of such a society in Europe is a dynamic process and that the journey towards a society so dependent upon digital information is far from straightforward

The China-Australia Free Trade Agreement Colin Picker, Heng Wang, Weihuan Zhou, 2017-12-14 This book provides readers with a unique opportunity to learn about one of the new regional trade agreements RTAs the China

Australia Free Trade Agreement ChAFTA that has been operational since December 2015 and is now at the forefront of the field. This new agreement reflects many of the modern and up to date approaches within the international economic legal order that must now exist within a very different environment than that of the late eighties and early nineties when the World Trade Organization WTO was created. The book therefore explores many new features that were not present when the WTO or early RTAs were negotiated. It provides insights and lessons about new and important trade issues for the twenty first century such as the latest approaches to the regulation of investment, twenty first century services and the emerging digital knowledge economy. In addition, this book provides new understandings of the latest RTA approaches of China and Australia. The book's contributors, all foremost experts on their subject matter within this field, explore the inclusion of many traditional trade and investment agreement features in the ChAFTA, showing their continuing relevance in modern contexts.

Global Supply Chain Ecosystems Mark Millar, 2015-06-03

Twenty first century supply chains have evolved into world wide interconnected supply and demand networks comprising vastly more complex operations with profound inter dependencies and exposure to greater volatility in our uncertain world. The linear concept of a chain is therefore no longer adequate to describe these complex international networks of suppliers, stakeholders, partners, regulators and customers that are involved in ensuring the efficient and effective movement of products, services, information and funds around the world. We are firmly in the era of Global Supply Chain Ecosystems. Exploring the latest market trends and industry developments across emerging, developing and developed markets in Global Supply Chain Ecosystems, industry leader Mark Millar presents detailed and practical insights that will help you capitalise on market opportunities, overcome supply chain challenges and make better informed business decisions. In addition to highlighting key supply chain shifts such as the move beyond globalisation back towards regionalisation, this ground breaking new publication explores several critical aspects of global supply chain ecosystems including visibility, resilience, sustainability and collaboration.
