Field Guide To Weeds In Australia:

Field Guide to Weeds in Australia ,1996 **A Field Guide to Weeds in Australia** Charles Lamp, Frank Collet, 1976

This field guide begins with some simple explanations of the botanical terms inescapable in describing plants. Its organization does not follow the formal layout of the definitive Floras of the region. Plants are not arranged in their families but are listed in alphabetical order of scientific name. It is to this extent self indexing. However an index of common plant names is included so that those who only know a plant by one of these names can locate it and confirm its description. BOOK JACKET

Environmental Weeds Kate Blood, 2001 Details over 175 environmental weeds in south eastern Australia. This field guide contains entries that include weed shape and size, history and uses, taxonomic relationships, origin, weedy distribution, description, reproductive and growth characteristics and confusing look-alikes. It is useful for farmers, amateur naturalists and others. **Weeds of Central Australia** Sunil Dhanji, 2009 Learn to identify and control the more common weeds of Central Australia and the arid zone. This 104 page comprehensive and accessible field guide will also be useful to residents of Queensland, New South Wales, Western Australia and South Australia who share the arid zone with those of us in the southern Northern Territory. With full colour images, detailed descriptions for identification, impact ratings for each species and weed management and control information, this publication will be of interest to local residents and land managers alike.
