Optimizing Play Christopher A. Paul, 2024-05-14 An unexpected take on how games work what the stakes are for them and how game designers can avoid the traps of optimization The process of optimization in games seems like a good thing who wouldn t want to find the most efficient way to play and win As Christopher Paul argues in Optimizing Play however optimization can sometimes risk a tragedy of the commons where actions that are good for individuals jeopardize the overall state of the game for everyone else As he explains players inadvertently limit play as they theorycraft seeking optimal choices The process of developing a meta or the most effective tactic available structures decision making causing play to stagnate A stale meta then creates a perception that a game is

solved and may lead players to turn away from the game Drawing on insights from game studies rhetoric the history of science ecology and game theory literature Paul explores the problem of optimization in a range of video games including Overwatch FIFA EA Sports FC NBA 2K Clash Royale World of Warcraft and League of Legends He also pulls extensively from data analytics in sports where the problem has progressed further and is even more intractable than it is in video games given the money sports teams invest to find an edge Finally Paul offers concrete and specific suggestions for how games can be developed to avoid the trap set by optimization run amok

of Human Rights in Sports Shinohara Tsubasa, 2024-02-15 This book will explore the legal avenues available to intersex and transgender female athletes who experience discrimination based on their gender identity and sex characteristics in sports. It will examine how they can seek legal remedies for violations of their human rights under international human rights law and provide guidance to legal practitioners and athletes on how to access judicial or quasi-judicial bodies in such situations. This is an important topic given the increasing attention being paid to the rights of intersex and transgender female athletes and the need to ensure that they are not unfairly excluded from participating in sports competitions. *Match Annual 2016*
