information on routine maintenance and servicing with tasks described and photographed in a step by step sequence so that even a novice can do the work **America, the Owner's Manual** Bob Graham, Chris Hand, 2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big

money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don't have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around

model of the Ford Focus *User Unfriendly* Joseph J. Corn, 2011-10-13 We've all been there Seduced by the sleek designs and smart capabilities of the newest gadgets we end up stumped by their complicated set up instructions and exasperating error messages In this fascinating history Joseph J. Corn maps two centuries of consumer frustration and struggle with personal technologies Aggravation with the new machines people adopt and live with is as old as the industrial revolution Clocks sewing machines cameras lawn mowers bicycles electric lights cars and computers all can empower and exhilarate but they can also exact a form of servitude Adopters puzzle over which type and model to buy and then how to operate the device diagnose its troubles and meet its insatiable appetite for accessories replacement parts or upgrades It intrigues Corn that we put up with the frustrations our technology thrusts upon us battling with the unfamiliar and climbing the steep learning curves It is this ongoing struggle more than the uses to which we ultimately put our machines that animates this quizzical study Having extensively researched owner's manuals computer user group newsletters and how to literature Corn brings a fresh consumer oriented approach to the history of technology *User Unfriendly* will be valuable to historians of technology students of American culture and anyone interested in our modern dependency on machines and gadgets **93 -**
