presidential power is the power to persuade why is there a lack of evidence of presidential persuasion George Edwards one of the leading scholars of the American presidency skillfully uses this contradiction as a springboard to examine and ultimately challenge the dominant paradigm of presidential leadership The Strategic President contends that presidents cannot create opportunities for change by persuading others to support their policies Instead successful presidents facilitate change by recognizing opportunities and fashioning strategies and tactics to exploit them Edwards considers three extraordinary presidents Abraham Lincoln Franklin D Roosevelt and Ronald Reagan and shows that despite their considerable rhetorical skills the public was unresponsive to their appeals for support To achieve change these leaders capitalized on existing public opinion Edwards then explores the prospects for other presidents to do the same to advance their policies Turning to Congress he focuses first on the productive legislative periods of FDR Lyndon Johnson and Reagan and finds that these presidents recognized especially favorable conditions for passing their agendas and effectively exploited

these circumstances while they lasted Edwards looks at presidents governing in less auspicious circumstances and reveals that whatever successes these presidents enjoyed also resulted from the interplay of conditions and the presidents skills at understanding and exploiting them The Strategic President revises the common assumptions of presidential scholarship and presents significant lessons for presidents basic strategies of governance **The Presidency and Public Policy Making**

George C. Edwards, Steven A. Shull, 1985-12-15 The premise behind this book is that policy making provides a useful perspective for studying the presidency perhaps the most important and least understood policy making institution in the United States The eleven essays focus on diverse aspects of presidential policy making providing insights on the presidency and its relationship to other policy making actors and institutions Major topics addressed include the environment of presidential policy making and the constraints it places on the chief executive relationships with those outside the executive branch that are central to presidential policy making attempts to lead the public and Congress presidential decision making and administration or implementation of policies in the executive branch a topic that has received limited attention in the literature on the presidency
