In the Event of Women Tani Barlow, 2021-09-20 In the Event of Women outlines the stakes of what Tani Barlow calls the event of women Focusing on the era of the late nineteenth century through the mid twentieth century's Cultural Revolution Barlow shows that an event is a politically inspired action to install a newly discovered truth in this case the mammal origins of human social evolution Highbrow and lowbrow social theory circulating in Chinese urban print media placed humanity's origin story in relation to commercial capital's modern advertising industry and the conclusion that women's liberation involved selling buying and advertising industrial commodities The political struggle over how the truth of women in China would be performed and understood Barlow shows means in part that an event of women was likely global because its truth is vested in biology and physiology In so doing she reveals the ways in which historical universals are effected in places where truth claims are not usually sought This book reconsiders Alain Badiou's concept of the event particularly the question of whose political moment marks newly discovered truths

The Great Class War 1914-1918 Jacques R. Pauwels, 2016-04-06 Historian Jacques Pauwels applies a critical revisionist lens to the First World War offering readers a fresh interpretation that challenges mainstream thinking As Pauwels sees it war offered benefits to everyone across class and national borders For European statesmen a large scale war could give their countries new colonial territories important to growing capitalist economies For the wealthy and ruling classes war served as an antidote to social revolution encouraging workers to exchange socialism's focus on international solidarity for nationalism's intense militarism And for the working classes themselves war provided an outlet for years of systemic militarization quite simply they were hardwired to pick up arms and to do so eagerly To Pauwels the assassination of Archduke Franz Ferdinand in June 1914 traditionally upheld by historians as the spark that lit the powder keg was not a sufficient cause for war but rather a pretext seized upon by European powers to unleash the kind of war they had desired But what Europe's elite did not expect or predict was some of the war's outcomes social revolution and Communist Party rule in Russia plus a wave of political and social democratic reforms in Western Europe that would have far reaching consequences Reflecting his broad research in the voluminous recent literature about the First World War by historians in the leading countries involved in the conflict Jacques Pauwels has produced an account that challenges readers to rethink their understanding of this key event of twentieth century world history
