Subcommittee on Personnel,2015 **Building a Culture of Health** John A. Quelch,Emily C. Boudreau,2016-09-22 This ambitious volume sets out to understand how every company impacts public health and introduces a robust model rooted in organizational and scientific knowledge for companies committed to making positive contributions to health and wellness Focusing on four interconnected areas of corporate impact it not only discusses the business imperative of promoting a healthier society and improved living conditions worldwide but also provides guidelines for measuring a company s population health footprint Examples statistics and visuals showcase emerging corporate involvement in public health and underscore the business opportunities available to companies that invest in health The authors offer a detailed roadmap for optimizing health promoting actions in a rapidly evolving business and social climate across these core areas Planning and building a culture of health Consumer health How organizations affect the safety integrity and healthfulness of the products and services they offer to their customers and end consumers Employee health How organizations affect the health of their employees e g provision of employer sponsored health insurance workplace practices and wellness programs Community health How organizations affect the health of the communities in which they operate and do business Environmental Health How organizations environmental policies or lack thereof affect individual and population health Implementing and sustaining a culture of health Building a Culture of Health clarifies both a mission and a vision for use by MPH and MBA students in health management professors in schools of public health and business schools and business leaders and chief medical officers in health care and non health care businesses *Mastering Healthcare Regulation: A Comprehensive Case*

Study Approach Jessica Holmes, Robin J. Lunge, Betty Rambur, 2024-04-30 Trying to make sense of the regulatory landscape in healthcare can be difficult. The many federal and state entities and their rules may work together yet they sometimes contradict one another. Mastering Healthcare Regulation will help readers understand and ultimately navigate the numerous layers of regulatory oversight within the healthcare system. This book clarifies laws and regulations with straightforward explanations and case studies that place readers in the shoes of regulatory decision makers. The first section presents an overview of healthcare regulation including market dynamics and the interactions between the various regulatory organizations. Each section that follows focuses on a broad subject that regulations seek to address: cost containment, consumer protection, payment and delivery system reform, and patient access, health and safety. Background is provided on each issue and real world scenarios are used to illustrate regulatory approaches and their economic, legal, and clinical ramifications. The book will teach readers how to decipher the regulatory landscape's complexities and how to influence regulations rather than simply being impacted by them.

Pediatric Primary Care - E-Book Catherine E. Burns, Ardys M. Dunn, Margaret A. Brady, Nancy Barber Starr, Catherine G. Blosser, Dawn Lee Garzon, 2016-03-02 Get an in depth look at pediatric primary care through the eyes of a Nurse Practitioner. Pediatric Primary Care 6th Edition guides readers through the process of assessing, managing, and preventing health problems in infants, children, and adolescents. Key topics include developmental theory, issues of daily living, the health status of children today, and diversity and cultural considerations. This sixth edition also features a wealth of new content and updates such as a new chapter on pediatric pharmacology, full color design and illustrations, new QSEN integration, updated coverage of the impact of the Affordable Care Act, a refocused chapter on practice management, and more to keep readers up to date on the latest issues affecting practice today. Comprehensive content provides a complete foundation in the primary care of children from the unique perspective of the Nurse Practitioner and covers the full spectrum of health conditions seen in the primary care of children, emphasizing both prevention and management. In depth guidance on assessing and managing pediatric health problems covers patients from infancy through adolescence. Four part organization includes: 1. an introductory unit on the foundations of global pediatric health, child and family health assessment, and cultural perspectives for pediatric primary care; 2. a unit on managing child development; 3. a unit on health promotion and management; and 4. a unit on disease management. Content devoted to issues of daily living covers issues that are a part of every child's growth such as nutrition and toilet training that could lead to health problems unless appropriate education and guidance are given. Algorithms are used throughout the book to provide a concise overview of the evaluation and management of common disorders. Resources for providers and families are also included throughout the text for further information. Expert editor team well is well versed in the scope of practice and knowledge base of Pediatric Nurse Practitioners (PNPs) and Family Nurse Practitioners (FNPs).

Socio-economics of Personalized Medicine in Asia Shirley Sun, 2016-07-01 The second decade of the twenty first century has witnessed a surging

interest in personalized medicine with the concomitant promise to enable more precise diagnosis and treatment of disease and illness based upon an individual's unique genetic makeup. In this book, my goal is to contribute to a growing body of literature on personalized medicine by tracing and analyzing how this field has blossomed in Asia. In so doing, I aim to illustrate how various social and economic forces shape the co-production of science and social order in global contexts. This book shows that there are inextricable transnational linkages between developing and developed countries and also provides a theoretically guided and empirically grounded understanding of the formation and usage of particular racial and ethnic human taxonomies in local, national, and transnational settings. The Open Access version of this book is available at <http://www.taylorfrancis.com/doi/view/10.4324/9781315537177> and has been made available under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 license.

The Oxford Handbook of Reproductive Ethics Leslie Francis, 2017. Intimate and medicalized natural and technological reproduction poses some of the most challenging ethical dilemmas of our time. This volume brings together scholars from multiple perspectives to address both traditional and novel questions about the rights and responsibilities of human reproducers, their caregivers, and the societies in which they live.

Defense Acquisition Trends, 2015 Jesse Ellman, Andrew P. Hunter, Rhys McCormick, Gregory Sanders, 2016-02-19. This study examines contracting trends at the U.S. Department of Defense (DoD). It relies on empirical analysis of DoD contracting transaction data from the open source Federal Procurement Data System (FPDS). The authors seek to identify and study emergent trends in the contracting data and marry that analysis with discussion of changing goals and methods for the larger acquisition system.

The Art of Compassionate Business Bruno R. Cignacco, 2023-12-01. There are several well-ingrained assumptions regarding the dynamics of work and business activities which can be refuted. Some examples of these widespread assumptions in business and work environments are: employees being viewed as commodities, competitors perceived as threats, companies' resources seen as limited, and customers perceived as scarce and difficult. All this leads to the question: Is there a way to perform business activities more humanely? The second edition of this book challenges the reader to change the way they perform in business situations and become more focused on the human aspects of business activities. The users of this knowledge and those affected by them will undergo a profound transformation in the way they perform business activities. They will benefit from gradually testing and implementing the guidelines conveyed in this book, both in the business environment and in the workplace. When readers put these principles into practice, positive ripple effects are bound to affect other stakeholders of the organisation they work for or own. The author has refreshed all the concepts and examples introduced in the first edition, which include aspects related to mission and vision, passion, business mindset, organisational learning, improvement of business conversations, use of constructive criticism, and betterment of relationships with the most relevant stakeholders: customers, suppliers, intermediaries, community, employees, etc. The author also includes a discussion of creativity and the innovation process, as well as other relevant aspects related to a healthy business environment and

provides various real life examples of companies which have adopted a loving attitude towards their stakeholders which has become so important in the current business environment
