Bhardwaj, Raj Kumar, Banks, Paul, 2019-05-15 Handling and archiving data should be done in a highly professional and quality controlled manner For academic and research libraries it is required to know how to document data and support traceability as well as to make it reusable and productive However these institutions have different requirements relating to the archiving and reusability of data Therefore a comprehensive source of information is required to understand data access and management within these organizations Research Data Access and Management in Modern Libraries is a critical

scholarly resource that delves into innovative data management strategies and strategy implementation in library settings and provides best practices to stakeholders using the latest tools and technology It further explores concepts such as research data management data access data preservation building document and data institutional repositories applications of Web 2 0 tools mobile technology applications in data access and conducting information literacy programs This book is ideal for librarians information specialists research scholars students IT managers computer scientists policymakers educators and academic administrators

Upgrader's Guide to Microsoft Office System 2003 Susan Sales Harkins, Mike Gunderloy, 2004-08-10 Microsoft Office 2003 is the sixth version of Microsoft's best selling Office suite As such most of the audience is comprised of people who have used previous versions of Office and are quite familiar with most of the features Upgraders do not need a 800 page book that covers every aspect of every Office application They need a book that's focused only on what's new so that they can move forward with a minimum of fuss That's what this book is all about

Driving Demand for Broadband Networks and Services Raul L. Katz, Taylor A. Berry, 2014-06-21 This book examines the reasons why various groups around the world choose not to adopt broadband services and evaluates strategies to stimulate the demand that will lead to increased broadband use It introduces readers to the benefits of higher adoption rates while examining the progress that developed and emerging countries have made in stimulating broadband demand By relying on concepts such as a supply and demand gap broadband price elasticity and demand promotion this book explains differences between the fixed and mobile broadband demand gap introducing the notions of substitution and complementarity between both platforms Building on these concepts Driving Demand for Broadband Networks and Services offers a set of best practices and recommendations aimed at promoting broadband demand The broadband demand gap is defined as individuals and households that could buy a broadband subscription because they live in areas served by telecommunications carriers but do not do so because of either economic limited awareness or lack of digital literacy reasons This grouping represents a range from 30% of the population in the US 40% in Germany and over 80% in most emerging countries Research indicates that broadband usage is critical for social development economic performance and overall welfare and so it behoves governments to encourage demand This study is the first of its kind to address the demand side of broadband diffusion incorporating an economic analysis while offering real world examples of policies and initiatives that have successfully spurred demand in developed and emerging markets alike This book is intended for policy makers managers of telecommunications and other technology companies as well as academics and graduate students in the areas of public policy economic development and technology management This book is an eye opener for policy makers Traditionally ICT policy has focused on the supply side Katz and Berry develop great ideas to leapfrog Internet penetration from the demand side where the value of the Internet is Diego Molano Vega Minister of Information Technologies and Communications of Colombia This book is an instant classic It brilliantly and convincingly lays out the case why dealing with inadequate internet penetration

has moved from the creation of supply to one of encouraging demand It provides an information rich and well written presentation of the factors holding back people from becoming users and offers a hugely valuable survey of the various programs around the world to make the broadband internet truly useful to people everywhere It is the kind of book writers in this field will use constantly Eli Noam Professor of Finance and Economics Columbia Business School This new study by Katz and Berry examines the rationale for national broadband plans and the evidence for their success in driving demand It presents the latest data on broadband in a range of case study countries and provides best practice advice for policy makers and development practitioners Dr Tim Kelly Lead ICT Policy Specialist World Bank International Conference on Digital Libraries (ICDL) 2016 Shantanu Ganguly,P K Bhattacharya,Projes Roy,Pallavi Shukla,N Deepa,2016-12-14 The ICDL Conferences are recognized as one of the most important platforms in the world where noted experts share their experiences Many DL experts have contributed thought provoking papers in ICDL 2016 These important papers are reviewed and conceptualized into ICDL on di_erent areas of DL proceedings The Proceedings have two volumes and over 700 pages

Resources in Education ,2001 **Digital Inclusion** Bruce Mutsvairo,Massimo Ragnedda,2018-08-15 The volume examines the risks and opportunities of a digital society characterized by the increasing importance of knowledge and by the incessant rise and pervasiveness of information and communication technologies ICTs At a global level the pivotal role of ICTs has made it necessary to rethink ways to avoid forms of digital exclusion or digital discrimination This edited collection comprises of chapters written by respected scholars from a variety of countries and brings together new scholarship addressing what the process of digital inclusion means for individuals and places in the countries analyzed Each country has its own strategy to guarantee that people can access and enjoy the benefits of the information society While this book does not presume to map all the countries in the world it does shed light into these strategies underlining what each country is doing in order to reduce digital inequalities and to guarantee that socially disadvantaged people in terms of disabilities availability of resources age geographic location lack of education or ethnicity are digitally included **Daily Graphic** Ransford Tetteh,2010-03-22
