Maybe Not A Novella:

Maybe Not Colleen Hoover, 2015-12-22 When Warren becomes roommates with cold and calculating Bridgette tempers flare but Warren is intent on turning her passionate antagonism into passionate love **Literature and Life** William Dean Howells, 2015-01-08 Perhaps the reader may not feel in these papers that inner solidarity which the writer is conscious of and it is in this doubt that the writer wishes to offer a word of explanation He owns as he must that they have every appearance of a group of desultory sketches and essays without palpable relation to one another or superficial allegiance to any central motive Yet he ventures to hope that the reader who makes his way through them will be aware in the retrospect of something like this relation and this allegiance Violence and Victimhood in Hispanic Crime Fiction Shalisa M. Collins, Renée W. Craig-Odders, Marcella L. Paul, 2018-07-26 At the heart of crime fiction is an investigation into an act of violence Studies of the genre have generally centered on the relationship between the criminal and the investigator Focusing on contemporary crime fiction from the Spanish speaking world this collection of new essays explores the role of the victim Contributors discuss how the definition of victim the nature of the crime the identification of the body and its treatment by authorities reflect shifting social landscapes changing demographics economic crises and political corruption and instability

Philosophy and the Novel Alan H. Goldman, 2013-04-05 Alan H Goldman presents an original and lucid account of the relationship between philosophy and the novel In the first part on philosophy of novels he defends theories of literary value and interpretation Literary value the value of literary works as such is a species of aesthetic value Goldman argues that works have aesthetic value when they simultaneously engage all our mental capacities perceptual cognitive imaginative and emotional This view contrasts with now prevalent narrower formalist views of literary value According to it cognitive engagement with novels includes appreciation of their broad themes and the theses these imply often moral and hence philosophical theses which are therefore part of the novels literary value Interpretation explains elements of works so as to allow readers maximum appreciation so as to maximize the literary value of the texts as written Once more Goldman's view contrasts with narrower views of literary interpretation especially those which limit it to uncovering what authors intended One implication of Goldman's broader view is the possibility of incompatible but equally acceptable interpretations which he explores through a discussion of rival interpretations of Ernest Hemingway's *The Sun Also Rises* Goldman goes on to test the theory of value by explaining the immense appeal of good mystery novels in its terms The second part of the book on philosophy in novels explores themes relating to moral agency moral development motivation and disintegration in Jane Austen's *Pride and Prejudice* Mark Twain's *Huckleberry Finn* John Irving's *The Cider House Rules* and Joseph Conrad's *Nostromo* By narrating the course of characters' lives including their inner lives over extended periods these novels allow us to vicariously experience the characters' moral progressions positive and negative to learn in a more focused way moral truths as we do from real life experiences Romanticism and Modernity Thomas Pfau, Robert Mitchell, 2014-07-16 Though

traditionally defined as a relatively brief time period typically the half century of 1780 1830 the Romantic era constitutes a crucial indeed unique transitional phase in what has come to be called modernity for it was during these fifty years that myriad disciplinary aesthetic economic and political changes long in the making accelerated dramatically Due in part to the increased velocity of change though most of modernity s essential master tropes such as secularization instrumental reason individual rights economic self interest emancipation system institution nation empire utopia and life were also subjected to incisive critical and methodological reflection and revaluation The chapters in this collection argue that Romanticism s marked ambivalence and resistance to decisive conceptualization arises precisely from the fact that Romantic authors simultaneously extended the project of European modernity while offering Romantic concepts as means for a sustained critical reflection on that very process Focusing especially on the topics of form both literary and organic secularization and its political correlates utopia and apocalypse and the question of how one narrates the arrival of modernity this collection collectively emphasizes the importance of understanding modernity through the lens of Romanticism rather than simply understanding Romanticism as part of modernity This book was previously published as a special issue of *European Romantic Review*

Reconsidering the Emergence of the Gay Novel in English and German James P. Wilper, 2016-02-15 In *Reconsidering the Emergence of the Gay Novel in English and German* James P. Wilper examines a key moment in the development of the modern gay novel by analyzing four novels by German British and American writers Wilper studies how the texts are influenced by and respond and react to four schools of thought regarding male homosexuality in the late nineteenth and early twentieth centuries The first is legal codes criminalizing sex acts between men and the religious doctrine that informs them The second is the ancient Greek erotic philosophy in which a revival of interest took place in the late nineteenth century The third is sexual science or sexology which offered various medical and psychological explanations for same sex desire and was employed variously to defend as well as to attempt to cure this perversion And fourth in the wake of the scandal caused by his trials and conviction for gross indecency Oscar Wilde became associated with a homosexual stereotype based on unmanly behavior Wilper analyzes the four novels Thomas Mann's *Death in Venice* E. M. Forster's *Maurice* Edward Prime Stevenson's *Imre A Memorandum* and John Henry Mackay's *The Hustler* in relation to these schools of thought and focuses on the exchange and cross cultural influence between linguistic and cultural contexts on the subject of love and desire between men
