OUTSOURCING 3.0 - Outperform: Outsource: Outprofit Vivek Sood,2020-08-31 Besides the 3 O s of Outperforming cast your mind far and wide Try not to miss anything Once you have thought of all the possibilities make the guess again What is the most outsourced service on earth today If you guessed call centres I would have to say no In fact if you guessed any of the following services logistics IT sales training fleet management or payrolls all popular services to be outsourced I would not nod my head once The answer which lies somewhere in this chapter is going to be a surprise to you Whether your guess is correct or not there is a lot more to be explored You will come to recognise how ubiquitous outsourcing has become in the modern day commercial world and how to keep your eyes open to recognise situations that are amenable to outsourcing The full list of all outsourceable activities within a company may include an element of surprise You will also know the answer to the second part of the 483 billion question i e when you must NOT outsource In our work we frequently encounter people who are dogmatic about outsourcing on both sides of the fence We have worked closely with directors serving on boards of large organisations who are against outsourcing On the other hand we also talk to people at all levels in companies who would rather outsource than do the tasks internally We have come across situations where companies are reluctant to outsource and where that would have been the best course of action **Computerworld** ,2000-03-20 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide

Index of Patents Issued from the United States Patent Office United States. Patent Office,1973 **The International Robot Industry Report** John Mortimer,Brian Rooks,2013-04-17 Like many other new technologies which have since been seized and exploited by others the industrial robot is a British invention In 1957 a patent was produced by a British inventor Cyril Walter Kenward and later it became crucial to the future of robotics For across the Atlantic two robot builders Unimation and AMF both infringed this patent and ultimately a cash settlement was made to Kenward The owner of Unimation Inc was Joseph Engelberger an entrepreneur and avid reader of Isaac Asimov the writer who helped to create the image of the benevolent robot It is claimed that Engelberger's journey of fame down the road which led to him being hailed as the father of robotics can be traced to the day that he met George C Devol at a cocktail party Devol was an inventor with an impressive list of patents to his name in the electronics field One of Devol's patent applications referred to a Programmed Transfer Article Devol's patent was issued in 1961 as US Patent 2 988 237 and this formed the basis of the Unimate robot which first saw the light of day in 1960 The first Unimate was sold to Ford Motor Company which used it to tend a die casting machine It is perhaps ironic that the first robot was used by a company which refused to recognise the machine as a robot preferring instead to call it a Universal Transfer Device **Index of Patents Issued from the United States Patent and Trademark Office** ,1990 Gas Age ,1928 Includes summaries of proceedings and addresses of annual meetings of various gas associations L C set includes an index to these proceedings 1884 1902 issued as a supplement to Progressive age Feb 15 1910 **Computerworld** ,2002-04-08 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network **Hunt-Scanlon's Select Guide to Human Resource Executives** ,2005 Computerworld ,2006-02-13 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network
