of Gaelic Grammar Large Print By Alexander Stewart The utility of a Grammar of the Scottish Gaelic will be variously appreciated Some will be disposed to deride the vain endeavour to restore vigour to a decaying superannuated language Those who reckon the extirpation of the Gaelic a necessary step toward that general extension of the English which they deem essential to the political interest of the Highlands will condemn every project which seems likely to retard its extinction Those who consider that there are many parts of the Highlands where the inhabitants can at present receive no useful knowledge whatever except through the channel of their native tongue will probably be of opinion that the Gaelic ought at least to be tolerated Yet these too may condemn as useless if not ultimately detrimental any attempt to cultivate its powers or to prolong its existence Others will entertain a different opinion They will judge from experience as well as from the nature of the case that no measure merely of a literary kind will prevail to hinder the progress of the English language over the Highlands while general convenience and emolument not to mention private emulation and vanity conspire to facilitate its

introduction and prompt the natives to its acquisition They will perceive at the same time that while the Gaelic continues to be the common speech of multitudes while the knowledge of many important facts of many necessary arts of morals of religion and of the laws of the land can be conveyed to them only by means of this language it must be of material service to preserve it in such a state of cultivation and purity as that it may be fully adequate to these valuable ends in a word that while it is a living language it may answer the purpose of a living language We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
