Literary Research and the British Eighteenth Century Peggy Keeran, Jennifer Bowers, 2013-02-21 The 18th century in Britain was a transition period for literature. It examines how the following all contribute to the richness of literary research for this era: book and periodical publishing a growing literate society dissemination of literature through salons private societies and coffee houses the growing importance of book reviews the explosion of publishing and the burgeoning of primary source material available through new publishing and digital initiatives in the 21st century. This volume explores primary and secondary resources including general literary research guides union library catalogs print and online bibliographies scholarly journals manuscripts and archives 18th century books newspapers and periodicals contemporary
