Field Guide To Otherkin:

A Field Guide to Otherkin Lupa, 2007 The Otherkin community is a small but growing subculture of people who identify in some way spiritually metaphorically as something Other than human Some resonate with dragons while others believe they were elves in another life and still others resonate with wolves great cats and other earthly animals Whether Otherkin yourself or simply curious this book is the first to offer you an in depth look into this unique community *Bits of Spirit & Parts of Soul* "...Reclaiming the Archetypes of Creation Within. Nevine Z Rottinger, 2014-12-01 Within every human as within the whole of creation there exist major fundamental directive and working energetic programmes Some call these massive force fields of influence the Archetypes whilst others call them Morphological Fields Ancient cultures recognised them as their Gods the Mind of God These fundamental energy fields are perhaps best understood as the bits of Prime Creator Great Spirit the parts of soul within humans plants animals the elements throughout creation As you read Book 1 and Book 2 describing the Major Archetypes of Creation you will gain a profound understanding of yourself the force field which permeates the very Stuff of Creation The content within these 2 books is divided into four stand alone parts which allow you the reader the freedom to explore any single group of archetypes in any order you wish Included are sections for those who wish to use the Vibrational Essences Elixirs which are designed to activate enhance these same Archetypal Energies within you should you wish it The material is channeled may at times break grammatical rules Just read as is you will understand the reason **Handbook of Hyper-real Religions** Adam Possamai, 2012-03-28 Hyper real religions are innovative religions and spirituality that mix elements of religious tradition with popular culture Through various case studies this book studies the on and off line religious spiritual consumption of these narratives through a social scientific approach **Animal Death** Jay Johnston, Professor Fiona Probyn-Rapsey, 2020-03-01 Animal death is a complex uncomfortable depressing motivating and sensitive topic **Narratology beyond the Human** David Herman, 2018-03-01 To what extent and in what manner do storytelling practices accommodate nonhuman subjects and their modalities of experience and how can contemporary narrative study shed light on interspecies interactions and entanglements In Narratology beyond the Human David Herman addresses these questions through a cross disciplinary approach to post Darwinian narratives concerned with animals and human animal relationships Herman considers the enabling and constraining effects of different narrative media examining a range of fictional and nonfictional texts disseminated in print comics and graphic novels and film In focusing on techniques such as the use of animal narrators alternation between human and nonhuman perspectives the embedding of stories within stories and others the book explores how specific strategies for portraying nonhuman agents both emerge from and contribute to broader attitudes toward animal life Herman argues that existing frameworks for narrative inquiry must be modified to take into account how stories are interwoven with cultural ontologies or understandings of what sorts of beings populate the world and how they relate to humans Showing how questions of narrative bear on ideas of species difference

and assumptions about animal minds Narratology beyond the Human underscores our inextricable interconnectedness with other forms of creatural life and suggests that stories can be used to resituate imaginaries of human action in a more than human world

Creatures of the Night Gregory L. Reece, 2012-02-28 Vampires and werewolves phantoms and phantasms looming out of the fog leaps the menacing spectre of the lycanthrope ghoul or blood crazed zombie Intrigued by some of the most sinister yet at the same time most compelling legends of western civilization Gregory L Reece dusts down his stake and crucifix loads his silver bullets and takes off into the wilds in search of answers and fresh adventures Rummaging around in crumbling tombs and cobwebbed sarcophagi his latest quest leads him into the haunted realm of the dead and the undead of those carnivorous nocturnal hunters that might perhaps better be left undisturbed Why he asks is our culture obsessed by the eerie and the macabre Why despite its horrors does the dark side of the supernatural its seances and ghost hunting demonic possession and the occult call to us with such dangerous allure Whether tracking night stalking werewolves chanting black magic mantras with Satanists or interviewing a funereal modern day Count Dracula Reece is determined to uncover the truth A wry exploration of a secret and secretive subculture Creatures of the Night is at the same time a bold and startling journey into a wraithlike world that has so often seemed to lie beyond the limits of rational comprehension until now

Vampires Today Joseph P. Laycock, 2009-05-14 This book about real vampires and the communities they have formed explores the modern world of vampirism in all its amazing variety Long before Dracula people were fascinated by vampires The interest has continued in more recent times with Anne Rice's Lestat novels Buffy the Vampire Slayer the HBO series True Blood and the immensely popular Twilight But vampires are not just the stuff of folklore and fiction Based upon extensive interviews with members of the Atlanta Vampire Alliance and others within vampire communities throughout the United States this fascinating book looks at the details of real vampire life and the many expressions of vampirism as it now exists In Vampires Today The Truth about Modern Vampirism Joseph Laycock argues that today's vampires are best understood as an identity group and that vampirism has caused a profound change in how individuals choose to define themselves As vampires come out of the coffin as followers of a religion or lifestyle or as people biologically distinct from other humans their confrontation with mainstream society will raise questions as it does here about how we define normal and what it means to be human

Fiction, Invention and Hyper-reality Carole M. Cusack, Pavol Kosnác, 2016-11-18 The twentieth century was a period of rapid change for religion Secularisation resulted in a dramatic fall in church attendance in the West and the 1950s and 1960s saw the introduction of new religions including the International Society for Krishna Consciousness ISKCON the Church of Scientology and the Children of God New religions were regarded with suspicion by society in general and Religious Studies scholars alike until the 1990s when the emergence of a second generation of new new religions based on popular cultural forms including films novels computer games and comic books and highly individualistic spiritualities confirmed the utter transformation of the religious spiritual landscape Indeed Scientology and ISKCON appeared almost traditional and conservative when compared to the radically de-institutionalised eclectic parodic fun loving and experimental fiction based invented and hyper-real religions In this book scholarly treatments of cutting edge religious and spiritual trends are brought into conversation with contributions by representatives of Dudeism the Church of All Worlds the Temple of the Jedi Order and Tolkien spirituality groups This book will simultaneously entertain shock challenge and delight scholars of religious studies as well as those with a wider interest in new religious movements
