O'Hare, 2019-02-13 This open access book describes the differences in US census coverage also referred to as differential undercount by showing which groups have the highest net undercounts and which groups have the greatest undercount differentials and discusses why such undercounts occur In addition to focusing on measuring census coverage for several demographic characteristics including age gender race Hispanic origin status and tenure it also considers several of the main hard to count populations such as immigrants the homeless the LGBT community children in foster care and the disabled However given the dearth of accurate undercount data for these groups they are covered less comprehensively than those demographic groups for which there is reliable undercount data from the Census Bureau This book is of interest to demographers statisticians survey methodologists and all those interested in census coverage **The Next Step:**

Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades

before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace s reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America s oldest public schools Schooling Corporate Citizens Ronald W. Evans,2014-11-27 Schooling Corporate Citizens examines the full history of accountability reform in the United States from its origins in the 1970s and 1980s to the development of the Common Core in recent years Based in extensive archival research it traces the origins and development of accountability reform as marked by key government and business led reports from A Nation at Risk to No Child Left Behind and Race to the Top By using the lens of social studies and civic education as a means to understand the concrete impacts of accountability reforms on schools Evans shows how reformers have applied principles of business management to schools in extreme ways damaging civic education and undermining democratic learning The first full length narrative account of accountability reform and its impact on social studies and civic education Schooling Corporate Citizens offers crucial insights to the ongoing process of American school reform shedding light on its dilemmas and possibilities and allowing for thoughtful consideration of future reform efforts **Policing Immigrants** Doris Marie Provine,Monica W. Varsanyi,Paul G. Lewis,Scott H. Decker,2016-06-14 The United States deported nearly two million illegal immigrants during the first five years of the Obama presidency more than during any previous administration President Obama stands accused by activists of being deporter in chief Yet despite efforts to rebuild what many see as a broken system the president has not yet been able to convince Congress to pass new immigration legislation and his record remains rooted in a political landscape that was created long before his election Deportation numbers have actually been on the rise since 1996 when two federal statutes sought to delegate a portion of the responsibilities for immigration enforcement to local authorities Policing Immigrants traces the transition of immigration enforcement from a traditionally federal power exercised primarily near the US borders to a patchwork system of local policing that extends throughout the country s interior Since federal authorities set local law enforcement to the task of bringing suspected illegal immigrants to the federal government s attention local responses have varied While some localities have resisted the work others have aggressively sought out unauthorized immigrants often seeking to further their own objectives by putting their own stamp on immigration policing Tellingly how a community responds can best be predicted not by conditions like crime rates or the state of the local economy but rather by the level of conservatism among local voters What has resulted the

authors argue is a system that is neither just nor effective one that threatens the core crime fighting mission of policing by promoting racial profiling creating fear in immigrant communities and undermining the critical community based function of local policing

Panguru and the City: Kāinga Tahi, Kāinga Rua Melissa Matutina Williams, 2016-03-09 Travelling from Hokianga to Auckland in the middle decades of the twentieth century, the people of Panguru established themselves in the workplaces, suburbs, churches, and schools of the city. Melissa Matutina Williams writes from the heart of these communities. The daughter of a Panguru family growing up in Auckland, she writes a perceptive account of urban migration through the stories of the Panguru migrants. Through these vibrant oral narratives, the history of Māori migration is relocated to the tribal and whānau context in which it occurred. For the people of Panguru, migration was seldom viewed as a one-way journey of new beginnings; it was experienced as a lifelong process of developing a coexistent home place for themselves and future generations. Dreams of a brighter future drew on the cultural foundations of a tribal homeland and past. Panguru and the City: Kāinga Tahi, Kāinga Rua traces their negotiations with people and places from Auckland's inner-city boarding houses, places of worship and dance halls, to workplaces and Māori Affairs homes in the suburbs. It is a history that will resonate with Māori from all tribal areas who shared in the quiet task of working against state policies of assimilation, the economic challenges of the 1970s, and neoliberal policies of the 1980s in order to develop dynamic Māori community sites and networks which often remained invisible in the cities of Aotearoa New Zealand.

Apocalypse and Heroism in Popular Culture Katherine E. Sugg, 2022-03-01 Stories of world-ending catastrophe have featured prominently in film and television. Zombie apocalypses, climate disasters, alien invasions, global pandemics, and dystopian world orders fill our screens, typically with a singular figure or tenacious group tasked with saving or salvaging the world. Why are stories of End Times crisis so popular with audiences? And why is the hero so often a white man who overcomes personal struggles and major obstacles to lead humanity toward a restored future? This book examines the familiar trope of the hero and the recasting of contemporary anxieties in films like *The Walking Dead*, *Snowpiercer*, and *Mad Max: Fury Road*. Some have familiar roots in Western cultural traditions, yet many question popular assumptions about heroes and heroism to tell new and fascinating stories about race, gender, and society and the power of individuals to change the world.
