Final Thoughts From A Dying Zen Dog:

Final Thoughts from a Dying Zen Dog Richard I. Kaye, Diane E. Pellowe, 2015-01-22 Recommended for mature age 13 and up I've seen a lot in my thirteen years of life I've run away and been rescued I've had children and lost them I've lived in cages and in beautiful homes But these days a lot of my thinking is done behind closed eyelids as I just feel so old and tired all the time Now you're probably confused at this point because in human years thirteen isn't old at all but in dog years especially if you're a sheltie like me that's ancient So when my human parents the best people you could ever meet started moping around the house I knew something was up For a few days I tried to ignore it but after another visit to the doctor we all had to finally face the truth I am dying But the story I have to tell you isn't a sad one You might say we dogs tend to view the world through rose colored glasses But really we just see it for the wonderful place it is Sure there are difficult moments but that's just it they are momentary The way I see it every day we have a choice to love laugh and be grateful **Right Thoughts at the Last Moment** Jacqueline I. Stone, 2016-11-30 Buddhists across Asia have often aspired to die with a clear and focused mind as the historical Buddha himself is said to have done This book explores how the ideal of dying with right mindfulness was appropriated disseminated and transformed in premodern Japan focusing on the late tenth through early fourteenth centuries By concentrating one's thoughts on the Buddha in one's last moments it was said even an ignorant and sinful person could escape the cycle of deluded rebirth and achieve birth in a Buddha's pure land where liberation would be assured Conversely the slightest mental distraction at that final juncture could send even a devout practitioner tumbling down into the hells or other miserable rebirth realms The ideal of mindful death thus generated both hope and anxiety and created a demand for ritual specialists who could act as religious guides at the deathbed Buddhist death management in Japan has been studied chiefly from the standpoint of funerals and mortuary rites **Right Thoughts at the Last Moment** investigates a largely untold side of that story how early medieval Japanese prepared for death and how desire for ritual assistance in one's last hours contributed to Buddhist preeminence in death related matters It represents the first book length study in a Western language to examine how the Buddhist ideal of mindful death was appropriated in a specific historical context Practice for one's last hours occupied the intersections of multiple often disparate approaches that Buddhism offered for coping with death Because they crossed sectarian lines and eventually permeated all social levels deathbed practices afford insights into broader issues in medieval Japanese religion including intellectual developments devotional practices pollution concerns ritual performance and divisions of labor among religious professionals They also allow us to see beyond the categories of old versus new Buddhism or establishment Buddhism versus marginal heterodoxies which have characterized much scholarship to date Enlivened by cogent examples this study draws on a wealth of sources including ritual instructions hagiographies doctrinal writings didactic tales courtier diaries historical records letters and relevant art historical material to explore the interplay of doctrinal ideals and on the ground practice **Letters to a Dead**
