Hard Choices By Hillary Rodham Clinton Simon Schuster June 29 24:

The Rise and Fall of the Neoliberal Order Gary Gerstle, 2022-03-01 In *The Rise and Fall of the Neoliberal Order* Gary Gerstle provides a sweeping re interpretation of the entire era from the revival of market liberalism in the 1970s to the ruin generated by the 2008 global financial crisis that places America at the center For many neoliberalism is a term of opprobrium and their critique of it is simple it prioritizes free market principles over people and under the guise of expanding individual choice throughout the world has dramatically shifted power toward capital While sympathetic to the regime's critics Gerstle contends that the largely negative conventional wisdom misses the full contours of what neoliberalism was and why its worldview exerted such persuasive hold on both right and left for so long [The Trans-Pacific Partnership](#) Matthew Rimmer, 2020-12-25 This book considers the impact of the Trans Pacific Partnership TPP on intellectual property and trade The book focuses upon the debate over copyright law intermediary liability and technological protection measures The text examines the negotiations over trade mark law cybersquatting geographical indications and the plain packaging of tobacco products It explores the debate over patent law and access to essential medicines data protection and biologics and the protection of trade secrets In addition the book investigates the treatment of Indigenous intellectual property access to genetic resources and plant breeders rights [After the White House](#) Max J. Skidmore, 2015-01-27 What exactly has Bill Clinton been doing since he left office What can he expect to accomplish What have his predecessors in his position done Many presidents have had enormous impacts on the course of history after their terms ended but not until *After the White House* by Max J Skidmore has their role been examined Thirty two completed their terms Four became presidential candidates again one was even elected two served in Congress one abandoned his country to accept election to the Confederate Congress one became Chief Justice and one has the unique distinction of having his First Lady become a United States senator Former presidents almost always remain influential but their post term activities have received little attention or scrutiny until now **The Day After** Brendan R. Gallagher, 2019-09-15 Since 9 11 why have we won smashing battlefield victories only to botch nearly everything that comes next In the opening phases of war in Afghanistan Iraq and Libya we mopped the floor with our enemies But in short order things went horribly wrong We soon discovered we had no coherent plan to manage the day after The ensuing debacles had truly staggering consequences many thousands of lives lost trillions of dollars squandered and the apparent discrediting of our foreign policy establishment This helped set the stage for an extraordinary historical moment in which America's role in the world along with our commitment to democracy at home and abroad have become subject to growing doubt With the benefit of hindsight can we discern what went wrong Why have we had such great difficulty planning for the aftermath of war In *The Day After* Brendan Gallagher an Army lieutenant colonel with multiple combat tours to Iraq and Afghanistan and a Princeton Ph D seeks to tackle this vital question Gallagher argues there is a tension between our desire to create a new democracy and our competing desire to pull out as soon as

possible Our leaders often strive to accomplish both to keep everyone happy But by avoiding the tough underlying decisions it fosters an incoherent strategy This makes chaos more likely The Day After draws on new interviews with dozens of civilian and military officials ranging from US cabinet secretaries to four star generals It also sheds light on how in Kosovo we lowered our postwar aims to quietly achieve a surprising partial success Striking at the heart of what went wrong in our recent wars and what we should do about it Gallagher asks whether we will learn from our mistakes or provoke even more disasters Human lives money elections and America s place in the world may hinge on the answer

What Happened Hillary Rodham Clinton, 2017-09-12 In the past for reasons I try to explain I've often felt I had to be careful in public like I was up on a wire without a net Now I'm letting my guard down Hillary Rodham Clinton from the introduction of *What*

Happened For the first time Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history Now free from the constraints of running Hillary takes you inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage sexism exhilarating highs and infuriating lows stranger than fiction twists Russian interference and an opponent who broke all the rules This is her most personal memoir yet In these pages she describes what it was like to run against Donald Trump the mistakes she made how she has coped with a shocking and devastating loss and how she found the strength to pick herself back up afterward With humor and candor she tells readers what it took to get back on her feet the rituals relationships and reading that got her through and what the experience has taught her about life She speaks about the challenges of being a strong woman in the public eye the criticism over her voice age and appearance and the double standard confronting women in politics She lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary By analyzing the evidence and connecting the dots Hillary shows just how dangerous the forces are that shaped the outcome and why Americans need to understand them to protect our values and our democracy in the future The election of 2016 was unprecedented and historic What Happened is the story of that campaign and its aftermath both a deeply intimate account and a cautionary tale for the nation **Hard Choices** Hillary Clinton, 2015-05 Japanese edition of Hillary Clinton s new book Hard Choices As she becomes the 2016 Democrat s presidential candidate this book offers a picture of her thoughts and achievements on her four years of experience as Secretary of State Book 1 of 2 In Japanese Annotation copyright Tsai Fong Books Inc Distributed by Tsai Fong Books Inc
