

Topic	USPSTF Recommendation
Obesity Prevention in Midlife Women	Counseling midlife women aged 40 to 60 years with normal or overweight body mass index ("BMI") (18.5-29.9 kg/m ²) to maintain weight or limit weight gain to prevent obesity. Counseling may include individualized discussion of healthy eating and physical activity.
Breastfeeding Services and Supplies	Breastfeeding equipment and supplies must currently be covered. New guidance expands on the description to specifically include double electric breast pumps (including pump parts and maintenance) and breast milk storage supplies. Access to double electric pumps should be a priority to optimize breastfeeding and should not be predicated on prior failure of a manual pump. Breastfeeding equipment may also include equipment and supplies as clinically indicated to support dyads with breastfeeding difficulties and those who need additional services.
Contraception	Male condoms must be covered.
Screening for Human Immunodeficiency Virus Infection ("HIV")	HIV screening for all adolescent and adult women must currently be covered. New guidance specifies that adolescent and adult women ages 15 and older can receive a screening test for HIV at least once during their lifetime. Earlier or additional screening should be based on risk and rescreening annually or more often may be appropriate beginning at age 13 for adolescent and adult women with an increased risk of HIV infection. Risk assessment and prevention education for HIV infection begins at age 13 and continues as determined by risk.
Well-Woman Preventive Visits	Women must currently be offered at least one preventive care visit per year beginning in adolescence and continuing across the lifespan. New guidance indicates that preventive services may be completed at a single or as part of a series of visits that take place over time to obtain all necessary services depending on a woman's age, health status, reproductive health needs, pregnancy status, and risk factors. Well-women visits include pre-pregnancy, prenatal, postpartum and interpregnancy visits.
