 century and to the study of the long term development of the English landed classes and the English constitution      *The*  
*New International Encyclopaedia* Frank Moore Colby,Talcott Williams,1929      Posthumous Images Chad Elias,2018-09-07  
 For almost two decades of its history 1975 90 Lebanon was besieged by sectarian fighting foreign invasions and complicated  
 proxy wars In *Posthumous Images* Chad Elias analyzes a generation of contemporary artists who have sought in different  
 ways to interrogate the contested memory of those years of civil strife and political upheaval In their films photography  
 architectural projects and multimedia performances these artists appropriate existing images to challenge divisive and  
 violent political discourses They also create new images that make visible individuals and communities that have been  
 effectively silenced rendered invisible or denied political representation As Elias demonstrates these practices serve to  
 productively unsettle the distinctions between past and present the dead and the living official history and popular memory  
 In Lebanon the field of contemporary art is shown to be critical to remembering the past and reimagining the future in a  
 nation haunted by a violent and unresolved war      *War and the City* Sara Fregonese,2019-11-14 *War and the City* examines  
 the geopolitical significance of the Lebanese Civil War through a micro level exploration of how the urban landscape of  
 Beirut was transformed by the conflict Focusing on the initial phase of the war in 1975 and 1976 the volume also draws  
 significant parallels with more recent occurrences of internecine conflict and with the historical legacies of Lebanon s  
 colonial past While most scholarship has thus far focused on post war reconstruction of the city the initial process of  
 destruction has been neglected This volume thus moves away from formal macro level geopolitical analysis to propose  
 instead an exploration of the urban nature of conflict through its spaces infrastructures bodies and materialities The book  
 utilizes urban viewpoints in order to highlight the nature of sovereignty in Lebanon and how it is inscribed on the urban  
 landscape *War and the City* presents a view of geopolitics as not only shaping narratives of international relations but as  
 crucially reshaping the space of cities      **Mandated Landscape** Roza El-Eini,2004-11-23 In this ground breaking  
 authoritative study a highly documented and incisive analysis is made of the galvanising changes wrought to the people and  
 landscape of British Mandated Palestine 1929 1948 Using a comprehensive and interdisciplinary approach the book s award  
 winning author examines how the British imposed their rule dominated by the clashing dualities of their Mandate obligations  
 towards the Arabs and the Jews and their own interests The rulers Empire wide conceptions of the White man s burden and  
 preconceptions of the Holy Land were potent forces of change influencing their policies Lucidly written *Mandated Landscape*  
 is also a rich source of information supported by numerous maps tables and illustrations and has 66 appendices a  
 considerable bibliography and extensive index With a theoretical and historical backdrop the ramifications of British rule are

highlighted in their impact on town planning agriculture forestry land the partition plans and a case study presenting discussions on such issues as development ecological shock law and the controversial division of village lands as the British operated in a politically turbulent climate often within their own administration This book is a major contribution to research on British Palestine and will interest those in Middle East history geography development and colonial postcolonial studies
