Clickers in the Classroom David S. Goldstein, Peter D. Wallis, 2023-07-03 With classroom response systems or CRSs also known as Student Response Systems Individual Response Systems or informally clickers in use in higher education for some 20 years there is now both ample research and a wealth of examples and ideas to draw on for faculty who are contemplating their use or exploring new ways to integrate them in their teaching The research demonstrates that integrated purposefully in courses the use of clickers aligns with what neuroscience tells us about the formation of memory and the development of learning In addition they elicit contributions from otherwise reticent students and enhance collaboration even in large lecture courses foster more honest responses to discussion prompts increase students engagement and satisfaction with the classroom environment and provide an instantaneous method of formative assessment This book presents a brief history of the development of CRSs and a survey of empirical research to provide a context for current best practices and then presents seven chapters providing authentic effective examples of the use of clickers across a wide range of academic disciplines demonstrating how they can be effective in helping students to recognize their misconceptions and grasp fundamental concepts Like all pedagogical interventions classroom response systems are no panacea and the experienced contributors candidly describe avoidable pitfalls while demonstrating how clickers can deepen student learning and how by providing instantaneous feedback they enable teachers to make adjustments on the fly to better address student understandings or misunderstandings The final chapter explores pros and cons of response systems that use mobile devices and smart phones and the book concludes with an annotated list of further resources such as books articles and videos

Legal Identity, Race and Belonging in the Dominican Republic Eve Hayes de Kalaf, 2021-11-02 This book offers a critical perspective into social policy architectures primarily in relation to questions of race national identity and belonging in the Americas It is the first to identify a connection between the role of international actors in promoting the universal provision of legal identity in the Dominican Republic with arbitrary measures to restrict access to citizenship paperwork from populations of largely but not exclusively Haitian descent The book highlights the current gap in global policy that overlooks the possible alienating effects of social inclusion measures promulgated by international organisations particularly in countries that discriminate against migrant descended populations It also supports concerns regarding the dangers of identity management noting that as administrative systems improve new insecurities and uncertainties can develop Crucially the book provides a cautionary tale over the rapid expansion of identification practices offering a timely critique of global policy measures which aim to provide all people everywhere with a legal identity in the run up to the 2030 UN Sustainable Development Goals SDGs

Theories of Co-perpetration in International Criminal Law Lachezar D. Yanev,2018-05-07 The proper construction of co perpetration responsibility in international criminal law has become one of the most enduring controversies in this field with the UN Tribunals endorsing the theory of joint criminal enterprise and the International Criminal Court adopting the alternative joint control over the crime theory to define this mode of liability This book seeks to reconcile the ICTY R s and ICC s jurisprudence by providing a definition of co perpetration that could be uniformly applied in the two justice models that these institutions represent the ad hoc and the treaty based model An evaluation framework is adopted pursuant to which the origins merits and deficiencies of the said competing theories are critically assessed and a refined legal framework of co perpetration responsibility is proposed *The Extraordinary Chambers in the Courts of Cambodia* Simon M.
