Ely, Edith King, Martin James Stormzand, 1926 *A Cultural History of the Senses in the Middle Ages* Richard G. Newhauser, 2014-10-23 Understanding the senses is indispensable for comprehending the Middle Ages because both a theoretical and a practical involvement with the senses played a central role in the development of ideology and cultural practice in this period For the long medieval millennium the senses were not limited to the five we think of speech for example was categorized among the senses of the mouth And sight and hearing were not always the dominant senses for the medical profession taste was more decisive Nor were the senses only passive receptors they were understood to play an active role in the process of perception and were also a vital element in the formation of each individual s moral identity

From the development of specifically urban or commercial sensations to the sensory regimes of holiness from the senses as indicators of social status revealed in food to the Scholastic analysis of perception this volume demonstrates the importance of sensory experience and its manifold interpretations in the Middle Ages A Cultural History of the Senses in the Middle Ages presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media

The Posing of Questions A. Wisniewski, 2013-11-27 This book is a study in the logic of questions sometimes called erotetic logic The central topics in erotetic logic have been the structure of questions and the question answer relationship This book doesn't neglect these problems but much of it is focussed on other issues The main subject is the logical analysis of certain relations between questions and the contexts of their appearance And our aim is to elaborate the conceptual apparatus of the inferential approach to the logic of questions Questions are asked for many reasons and for different purposes Yet before a question is asked or posed a questioner must arrive at it In many cases arriving at a question resembles coming to a conclusion there are some premises involved and some inferential thought processes take place If we agree that a conclusion need not be conclusive we may say that sometimes questions can play the role of conclusions But questions can also perform the role of premises we often pass from some initial question to another question In other words there are inferential thought processes we shall call them erotetic inferences in which questions play the roles of conclusions or conclusions and premises The inferential approach to the logic of questions focusses its attention on the analysis of erotetic inferences This book consists of eight chapters

Questions and Answers for Physicians Gary Leiser, Noury Al-Khaledy, 2004-01-01 This is a translation and edition of the medieval Arabic medical work entitled *Imti n al alibb li k ffat al a ibb The Experts Examination for All Physicians* It is a study guide for students of medicine prepared by Abd al Az z al Sulami who was chief of medicine to the Ayy bid sultan in Cairo between 596 1200 and 604 1208 It is composed of ten chapters on ten fields of medicine the pulse urine fevers and crises symptoms drugs treatment ophthalmology surgery bonesetting and fundamentals Each chapter contains twenty questions on the respective subject with the answer to each question In addition an authority is cited for each answer This work sheds light on medical education in the medieval Middle East and is an epitome of the medical knowledge of the time

Medieval Europe From Another Angle Florin Curta, 2025-05-29 The history of East Central Southeastern and Eastern Europe may be considered as alternating between a Marxist emphasis on rigid differences between Antiquity and the Middle Ages largely derived from distinctive modes of production and a preoccupation with borders ethnicity and personalities This volume examines a number of economic problems that highlight the limits of the current interpretative models such as the existence of markets or the relation between trade and gift giving largely on the basis of the archaeological evidence from the eastern parts of the European continent In addition four other chapters address critically such issues as the images of Charlemagne in East Central Europe

and of the Vlachs in the French crusade chronicles linear frontiers as well as the significance of St Christopher in Teutonic Prussia Medieval Europe from Another Angle will appeal to scholars and students alike studying Late Antiquity and the early Middle Ages with an interest in material culture and its use in building ethnic boundaries It covers a wide geographical area from Iberia to the Baltic region
