Diamond Cut Six Packs! Andrei Besedin, 2017-09-24 Losing weight is a billion dollar industry in America

there are thousands of devices and programs you can buy that promise to get you 6 pack abs fast but they don't work. If it were as easy as buying a pill, shake, or ab machine, then the shopping malls across America would see all men with rippling washboard abs and all women with flat tummies. But what do we see instead? Obesity everywhere. Let's clear up one huge misconception: right now, ab machines and ab exercises will NOT get you 6 pack abs. 95% of the work in getting 6 pack abs is losing bodyfat, and no ab exercise will do that. If you have a beer belly, you could do ab exercises all year long and still never get 6 pack abs. You can have rippling muscular abs, but if they are covered with an inner tube of fat, then nobody is going to see them. It's not that hard, and it's not that complicated. The changes you need to make to lose weight and reduce your bodyfat are much smaller than you fear, and they are easier to live with than you could possibly imagine. A common sense approach involving exercise and nutrition is all that is required to get ripped washboard abs. When most people think about losing weight, what comes to mind is words like hunger, deprivation, diet, and agony. No, losing weight properly will not result in any of these. The key is in the above two words: common sense.

Creative Fitness Henry B. Biller, 2002-05-30. Biller integrates research about exercise, nutrition, and health within an applied developmental psychological framework. Readers are presented with ways of making fitness an enjoyable and positive force in their daily lives. Although a major focus is on how to get in shape, Biller's primary mission is to encourage a healthy lifestyle that enriches self-awareness and personal growth. The goal is not just to facilitate physical fitness but to enhance overall life satisfaction. The book's uniqueness accordingly lies in its ability to help individuals develop a creative, playful approach to fitness in all spheres of their lives. While some readers are just beginning to think about fitness because of a desire to lose weight and improve their appearance, others are more interested in refining their athletic skills or achieving a greater balance in their daily activities. Dedicated exercisers often are striving for new routines and ways to prevent burnout. Many parents, moreover, are searching for activities to help their children, as well as themselves, become more fit. Older individuals are especially likely to be concerned about staying healthy and avoiding physical dependence as they age. Biller speaks to all these concerns and all these groups by providing an approach to getting in shape that enriches self-understanding and mental vitality.
