**Cryptomania** Andrew R Chow, 2024-08-06 For fans of Bad Blood and Too Big to Fail an explosive page turning account of one of the largest financial frauds in US history chronicling the utopian promises human collateral and incineration of billions of dollars in the 2022 crypto crash by Time magazine's technology correspondent As cryptocurrency rose in popularity during the pandemic new converts bought into the idea that crypto would not only make them rich but would usher in imminent revolutions across art finance politics and gaming Cryptocurrency caught the zeitgeist through figures like FTX CEO Sam Bankman Fried who only two years later would be convicted of one of the most calamitous acts of financial fraud in US history During his meteoric rise Sam Bankman Fried outflanked idealists in the movement like Vitalik Buterin who sought to build fairer more democratic systems through Ethereum Bankman Fried pursued a growth obsessed by any means approach to crypto which proved seductive to those who just wanted to get rich But this Silicon Valley like approach also drove the creation of a spate of high risk financial instruments that mirrored those of the 2008 financial crisis Accused of misleading investors and mishandling funds Bankman Fried became a target of prosecutors Now Cryptomania unfolds the tumultuous twenty months inside this male dominated overhyped industry that led to its downfall Drawing on exclusive reporting and an extensive network in the global NFT community Andrew Chow chronicles the battle for crypto's soul and the human toll of its economic meltdown from the conmen and eccentrics driving the bubble to the victims caught in its burst **Fraud and Risk in Commercial Law** Paul S Davies, Hans Tjio, 2024-08-08 This book focuses on contemporary problems related to fraud and risk in commercial law It has been said by some that we are in a golden age of fraud In part this has been caused by globalisation technological changes and the financialisation of business This has resulted in the creation of automated linkages with integrated supply chains and the creation of systemic risks which have been exacerbated by new forms of intangible assets like tokens and their ease of movement While regulation has ebbed and flowed given the desire of governments to generate economic growth as well as the distrust of their coercive powers the courts have sought to strike a balance between considerations such as commercial certainty and fairness The book provides an analysis of key contemporary issues on the theme of fraud and risk in commercial law including technology and fraud secondary liability and failure to prevent economic crime abuse of business entities insolvency and creditor protection injunctions and other orders cross border issues the relationship between regulation and private law and solutions for policy makers **Geological Survey Water-supply Paper**, 1966 **Sessional Papers** Canada. Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement **More Everything Forever** Adam Becker,2025-04-22 This wild and utterly engaging narrative Melanie Mitchell shows why Silicon Valley s heartless baseless and foolish obsessions with escaping death building AI tyrants and creating limitless growth are about oligarchic power not preparing for the future Tech billionaires have decided that they should determine our futures for us According to Elon Musk Jeff Bezos Sam Altman and more the only good future for humanity is one powered by technology trillions of humans living in space functionally immortal served by superintelligent AIs In More Everything Forever science journalist Adam Becker investigates these wildly implausible and often profoundly immoral visions of tomorrow and shows why in reality there is no good evidence that they will or should come to pass Nevertheless these obsessions fuel fears that overwhelm reason for example that a rogue AI will exterminate humanity at the expense of essential work on solving crucial problems like climate change What s more these futuristic visions cloak a hunger for power under dreams of space colonies and digital immortality The giants of Silicon Valley claim that their ideas are based on science but the reality is darker they come from a jumbled mix of shallow futurism and racist pseudoscience More Everything Forever exposes the powerful and sinister ideas that dominate Silicon Valley challenging us to see how foolish and dangerous these visions of the future are
