

JUNE EXAMINATION GRADE 12

2023

MARKING GUIDELINES

ACCOUNTING

(PAPER 1)

12 pages

MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answer. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or – sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. If candidates provide more than the required number of responses, inspect all responses to give benefit to the candidate. Penalties may be applied for foreign entries if candidates earn full marks on a question (max. -2 per Q).
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, marker must inspect reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
11. In calculations, do not award marks for workings if numerator & denominator are swapped – this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a □.
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: f = foreign item; p = placement/presentation.

The Bloomsbury Handbook of Gender and Educational Leadership and Management Victoria Showunmi, Pontso Moorosi, Charol Shakeshaft, Izhar Oplatka, 2022-02-24 Drawing together diverse research perspectives and theoretical underpinnings this handbook explores gender as a social category and examines cultural and social differences Bringing together diverse perspectives from around the world including from Africa Europe the Middle East the UK and the USA the volume sets out the gender and educational leadership and management field providing a snapshot of the field as it stands signalling its development and directions for future development It offers focused reviews of empirical research on particular aspects of the field and presents new insights from research findings and methodological approaches

Towards more effective collaboration by higher education institutions for greater regional development in the Gauteng City-Region Robert Bergman, 2014-11-19 Higher education institutions HEIs in the Gauteng City Region GCR and elsewhere are increasingly being called upon to do more than their traditional roles of teaching and research They are now expected to collaborate and engage with other stakeholders with a view to contributing directly and indirectly to social and economic development in their localities Such an orientation includes having HEIs actively fostering public private partnerships and other initiatives that enhance equitable regional development The adoption of such a focus has implications for all aspects of these institutions activities as well as for the policy and regulatory framework in which they operate This Occasional Paper reflects critically on the role of HEIs in regional development It surveys current debates on the matter and draws out some of the implications on how we ought to think further about the current state of government industry academia interaction and collaboration for development in the GCR It is motivated by an awareness of the increasing importance of higher education in the regional development discourse alongside a body of international theory and practice on the contribution of HEIs to regional development A cornerstone of this body of literature

is the so called triple helix framework within which government industry and academia work intimately intensely and collaboratively towards a common vision of regional development Within this framework HEIs are considered to be a public good that must play a large meaningful and relevant role in the development and improvement of the cities and regions where they are located 1 2 They do not and cannot stand completely outside the realities of their geographic social cultural and political environment The intended audience for this report extends beyond academics and HEI administrators to include government officials business and labour leaders civil society and citizens because a discussion on stimulating and improving the GCR must be much more than an academic exercise The collaboration that is essential to regional development requires stakeholders to be familiar with a wide spectrum of issues of importance to individual constituencies Each constituency must add value and insight to the discussion by drawing on their specific knowledge experience and self interests Establishing this common ground is fundamental to initiating meaningful debate about what the GCR can and should be and how regional HEIs can work more collaboratively creatively and effectively to improve and advance the region

The Infrastructures of Security Martin Murray, 2022-08-15 The shift from dependence upon human decision making in security services to Artificial Intelligence

The Changing Space Economy of City-Regions Koech Cheruiyot, 2017-10-30 This book addresses the South African Space Economy and its stark disparities and dualisms through an assessment of the Gauteng City Region the largest economic agglomeration in the country and on a continent bedevilled by a myriad of development challenges The book's focus on understanding the overall character of Gauteng City Region's Space Economy through data mining analysis and mapping comprehensively supplements the Space Economy literature on the region It covers the disparities exacerbated by an overlay of apartheid planning ideology and top down regional development based on selective encouragement of manufacturing investments in growth points or poles and how implementation of past policies intended to cure these disparities have yielded mixed results This book further offers the Gauteng City Region as a microcosm of the national economy in the form of evident significant placed based variations in the intensity and character of economic structure that on the one hand enjoys massive agglomeration economies while on the other has high levels of poverty and large numbers of people living below the Minimum Living Level This book should appeal to urban studies specialists economists and development studies researchers in the Global South

Urbanization and Industrialization for Africa's Transformation, 2017 The 2017 Economic Report on Africa focuses on the linkages between industrialization and urbanization Urbanization is one of Africa mega trends with profound implications for the social economic environmental dimensions of growth and transformation Theory and experience demonstrate that industrialization and urbanization can be mutually reinforcing processes It is therefore imperative to explore the linkages between urbanization and industrialization given the profound implications for structural transformation in Africa So far current policy narratives and frameworks on structural transformation and industrialization in Africa have largely failed to factor in the spatial and urban dimensions of industrialization and in particular the advantages presented by productivity enhancement and agglomeration effects generated by cities Yet the nexus between urbanization and industrialization is of particular relevance for Agenda 2063 and the 2030 Agenda on Sustainable Development Both agendas recognize urbanization as a critical factor for sustainable development It is also important to consider urbanization and industrialization in light of Africa s engagement with the Third United Nations Conference on Housing and Sustainable Urban Development Habitat III to be held in Quito Ecuador in October 2016 In this context African policy makers have clearly recognized urbanization as an engine of structural transformation for inclusive and sustainable growth

Reviews in Vaccination Programmes Chiara de Waure ,Maarten Jacobus Postma, 2025-08-19 Infectious diseases continue to pose significant global health threats highlighting the crucial role of vaccination in safeguarding public health Vaccination has been one of the most successful public health interventions in history leading to the eradication or significant reduction of many life threatening diseases Vaccinations are provided within programmes that vary between and within countries and also in the light of the different organization of healthcare systems As new infectious agents emerge and existing ones evolve it becomes imperative to continually review monitor and update vaccination programmes to ensure their relevance and success In order to do so several aspects should be considered concerning not only vaccines properties but also the burden and relevance of diseases organizational aspects public response and sustainability This Research Topic aims to collect review articles on the latest developments in vaccination policies and strategies focusing on how they were informed developed implemented and monitored and on their contribution to population health and well being

Routledge Handbook of Urban Planning in Africa Carlos Nunes Silva, 2019-10-28 This handbook contributes with new evidence and new insights to the on going debate on the de colonization of knowledge on urban planning in Africa African cities grew rapidly since the mid 20th century in part due to rising rural migration and

rapid internal demographic growth that followed the independence in most African countries This rapid urbanization is commonly seen as a primary cause of the current urban management challenges with which African cities are confronted This importance given to rapid urbanization prevented the due consideration of other dimensions of the current urban problems challenges and changes in African cities The contributions to this handbook explore these other dimensions looking in particular to the nature and capacity of local self government and to the role of urban governance and urban planning in the poor urban conditions found in most African cities It deals with current and contemporary urban challenges and urban policy responses but also offers an historical overview of local governance and urban policies during the colonial period in the late 19th and 20th centuries offering ample evidence of common features and divergent features as well on a number of facets from intra urban racial segregation solutions to the relationships between the colonial power and the natives to the assimilation policy as practiced by the French and Portuguese and the Indirect Rule put in place by Britain in some or in part of its colonies Using innovative approaches to the challenges confronting the governance of African cities this handbook is an essential read for students and scholars of Urban Africa urban planning in Africa and African Development

One Virus, Two Countries Steven Friedman, 2021-11-01 Has South Africa done well at limiting illness and deaths during the COVID 19 pandemic Academic and political commentator Steven Friedman thinks not While the country's mainstream media believes it has in his view the evidence tells another story South Africa has experienced by far the most cases and deaths in Africa at one point as many as the rest of the continent combined One Virus Two Countries What Covid 19 tells us about South Africa offers a searing analysis of government and expert scientists responses to the pandemic Friedman argues that South Africa is two societies in one a First World which resembles Western Europe and North America and a Third World which looks much like the rest of Africa or South Asia The South African state the media and the scientific community have largely tried to deal with the virus through a First World lens in which much of the country was either invisible or a problem not a partner Friedman argues this approach prevented the country from responding in a way which would have protected most citizens This is why case numbers and deaths are so high South Africa

has done worse than the rest of Africa not despite the fact that it has a more developed health system but because it does One Virus Two Countries is a controversial book that will rouse much needed debate about South Africa s health and economic system in a context of serious inequality
