Navigating Conflict Calvin Morrill, Michael Musheno, 2018-04-24 Urban schools are often associated with violence chaos and youth aggression But is this reputation really the whole picture In *Navigating Conflict* Calvin Morrill and Michael Musheno challenge the violence centered conventional wisdom of urban youth studies revealing instead the social ingenuity with which teens informally and peacefully navigate strife ridden peer trouble Taking as their focus a multi ethnic high poverty school in the American southwest the authors complicate our vision of urban youth along the way revealing the resilience of students in the face of carceral disciplinary tactics Grounded in sixteen years of ethnographic fieldwork *Navigating Conflict* draws on archival and institutional evidence to locate urban schools in more than a century of local state and national change Morrill and Musheno make the case for schools that work where negative externalities are buffered and policies are adapted to ever evolving student populations They argue that these kinds of schools require meaningful inclusive student organizations for sustaining social trust and collective peer dignity alongside responsive administrative leadership Further students must be given the freedom to associate and move among their peers all while in the vicinity of watchful but not intrusive adults Morrill and Musheno make a compelling case for these foundational conditions arguing that only through them can schools enable a rich climate for learning achievement and social advancement **SEBI Grade A Legal Officer**

Catalano, 2015-09-28 If you re a librarian charged with collecting curriculum materials and children s literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children s literature primary
