SCOPE & SEQUENCE TEMPLATE AND PLANNING GUIDELINES

ADEC FOCUS QUESTION: How do I think about my future?					
Explore: - What are my skills and interests? - How do I make good choices? - How do I prepare for the future? <i>ALL class work and activities MUST relate to this theme. Ask students to identify features – what do you notice about this type of writing compared to eg. Recount? <u>Then</u> teach them how to use the particular language feature in their own writing.

Defining Identity and the Changing Scope of Culture in the Digital Age Novak, Alison, El-Burki, Imaani Jamillah, 2016-05-19 Since the popularization of Internet technologies in the mid 1990s human identity and collective culture has been dramatically shaped by our continued use of digital communication platforms and engagement with the digital world. Despite a plethora of scholarship on digital technology, questions remain regarding how these technologies impact personal identity and perceptions of global culture. *Defining Identity and the Changing Scope of Culture in the Digital Age* explores a multitude of topics pertaining to selfhood, self-expression, human interaction, and perceptions of civilization and culture in an age where technology has become integrated into every facet of our everyday lives. Highlighting issues of race, ethnicity, and gender in digital culture, interpersonal and computer-mediated communication, pop culture, social media, and the digitization of knowledge, this pivotal reference publication is designed for use by scholars, psychologists, sociologists, and graduate-level students interested in the fluid and rapidly evolving norms of identity and culture through digital media.

Although public schools in the United States have the potential for meeting these challenges on a mass scale, they are slow to respond. The emphasis on discrete subject areas and standardized test performance offers little in the way of authentic learning and may in reality impede health. *Healthy Teens, Healthy Schools: How Media Literacy Education Can Renew Education in the United States* reframes health education as a complex terrain that resides within a larger ecosystem of historical, social, political, and global economic forces. It calls for a media-literate pedagogy that empowers students to be critical consumers, creative producers, and responsible citizens. This book illustrates holistic health education through school community initiatives and innovative partnerships that are successful in magnifying all curriculum subjects and their associated teaching practices. Vanessa Domine offers teachers, teacher educators, school administrators, community organizers, public health professionals, and policy makers with a transmedia and transdisciplinary educational approach to adolescent health to demonstrate how our collective focus on cultivating healthy teens will ultimately yield healthy schools.

Theorizing Teaching and Learning in Asia and Europe John Chi-Kin Lee, Kerry J. Kennedy, 2017-03-27 There has been much debate in recent times between the Anglo-American tradition of curriculum studies and the Continental and North European tradition of didactics. *Didaktik* as important as such debate has been, this book seeks to add new voices to the debate, representing ideas and traditions from a different part of the world. The focus is on Chinese curriculum thinking that

has passed through a number of stages and currently represents a blend of some aspects of the American tradition and Chinese cultural traditions How does Chinese thinking about curriculum teaching and learning resonate with European didactic traditions and what are the implications for theorizing an expanded field of curriculum studies This book deliberately transcends borders and cultures to explore new territory to provide a platform for open dialogue and to open up new areas of investigation Chapters include Curriculum Reform and Research in China A Social Historical Perspective What Mathematics Did Teachers Learn Comparison of the School and the Pre Service Teacher Mathematics Curricula in Germany and Taiwan Living in Parallel Worlds A Transatlantic Dialogue between General Didactics and Instructional Design Child Development From Infancy to Adolescence Laura E.
